After Atlantis Andrew Welburn, 2025-11-24 A revolution is reshaping our understanding of human origins Gone is the old narrative of slow animal like evolution Instead we now see humanity's emergence as marked by explosive transformations like the Palaeolithic spiritual leap that gave birth to cave art a profound expression of shamanistic visionary consciousness Even the long misunderstood Neanderthals are now recognized as integral to our story At the heart of this new prehistory lies the world of the cave artists whose vision shaped the essential scope of human existence along with its inherent dangers and excesses As explored in Andrew Welburn's acclaimed Neanderthals and Atlantis Rudolf Steiner and the New Prehistory nominated for the 2025 ISSR International Book Prize Steiner's linking of the Atlantis legend and the betrayal of its Mysteries to this era gains startling new relevance But the story does not end there Steiner revealed how the great cultures of antiquity India Persia Egypt and Mesopotamia were not merely outdated belief systems but vital stages in humanity's evolution of consciousness These traditions planted within us the seeds of moral sacrifice commitment to a better world and the courage to confront life and death Today cutting edge prehistorians are abandoning the myth of culture as a patchwork of conquests embracing instead a Palaeolithic Continuity Model that resonates deeply with Steiner's vision In this illuminating second volume Welburn bridges the gap between the Ice Age's transformative crisis and a bold new interpretation of modernity Drawing on Steiner's insights including the profound Moses Mystery he reveals how the Bible and Christianity are illuminated by the hidden currents of human consciousness A groundbreaking work that redefines our past to better understand our future
