The US Sports Film: A Genre of American Dream Time Danny Gronmaier, 2022-12-05 Sports and film are media that create time They are temporal not only in the sense that they are defined and regulated by certain temporalities as a result of processes of social negotiation but also in the sense of modulating and intervening in these processes in the first place They are determined by multiple temporalities referring to and aligning along perceptual corporeality but at the same time they also produce time through and along temporalities of bodily expression and perception Thus as much as we perceive and understand sports and film by means of our culturally coded conceptions of time this comprehension is itself already the product of these media s fabrication and modulation of certain audiovisual imaginations of time This book examines these imaginations with regard to US team sports

feature films understanding the former as the latter's constitutive conflict which makes these films graspable as a genre in the first place. By addressing temporality as an ever new crystallization of a heroic past and an unattainable future in a saturated yet volatile present, this conflict connects substantially to the American Dream as an idea of community building historicity. Departing from a non-taxonomic approach in genre theory and such philosophical recognition of the American Dream as less an ideological narrative but more a social and socially effective imaginary embedded in an audiovisual discourse of time, this book demonstrates the interrelation of sports cinema and American subjectivization along close readings of the poetics of affect of five exemplary sports films: *FIELD OF DREAMS*, *WE ARE MARSHALL*, *KNUTE ROCKNE*, *ALL AMERICAN JIM THORPE*, *ALL AMERICAN MIRACLE*. Billings, Marie Hardin, 2025-04-23. This handbook takes an in-depth look at the transformative impact of social media on sport. With broader and deeper coverage than any previous book on this topic, the handbook explores how sports media is co-created and curated collectively at the individual, group, and organisational level, and considers the implications for the ways in which sports media, through social media, infiltrates our lives and influences local and global culture. Exploring key concepts and presenting original case studies, the book features work by world-leading international sports media scholars. It discusses the theoretical lenses through which we can understand social media and sport, from political economy and cultural dynamics to business and management, and explains the significance of global social media platforms. The book then presents a multi-level exploration of sport and social media, including social media use by fans, athletes, teams, leagues, and media organisations. Offering important new insight into a technology that now sits at the centre of our social and economic lives, this book is important reading for any researcher, student, practitioner, or policymaker with an interest in sport media, sport business, sport cultures, digital media technologies, digital business, or the broader relationships between sport media and wider society. the front pages has once again moved from simmering to hot Congress has been investigating the tax exempt status of the NCAA in part because of questions about how commercialized college sports contribute to educational values Athletes are challenging the NCAA on antitrust grounds to get a bigger share of the revenue Against this backdrop more faculty are beginning to be concerned about what is happening at their own universities and to the educational system as a whole as rampant commercialism further invades campus life through big time sports A leader among faculty fighting back has been Allen Sack a co founder of the Drake Group whose writings and public appearances including work as an expert witness have gained him wide recognition as an outspoken advocate for athletic reform This book brings together in a compelling way both his personal story of life as a highly recruited athlete out of high school and a football player at Notre Dame under legendary coach Ara Parseghian and his fight since then as a scholar activist against what he calls the academic capitalism of the system under current NCAA rules Sack distinguishes his own position as an advocate of athletes rights from the reformist stance of NCAA President Myles Brand who believes that commercialized sport and education can peacefully coexist and the intellectual elitist position of people like William Dowling who would like to see big time college sports kicked off campus altogether It is a battle with high stakes for all concerned not least the athletes whose exploitation by the system has been the motivating force for Sack s own campaign now stretching over several decades
