Design's competition **Fair and Foul** D. Fair and Foul draws on examples ranging from youth to pro sports to give us a deeper understanding of how sports shape our everyday world. The Palgrave Handbook of Power, Gender, and Psychology Eileen L. Zurbruggen, Rose Capdevila, 2023-12-28 The Palgrave Handbook of Power, Gender, and Psychology takes an intersectional feminist approach to the exploration of psychology and gender through a lens of power. The invisibility of power in psychological research and theorizing has been critiqued by scholars from many perspectives, both within and outside the discipline. This volume addresses that gap. The handbook centers power in the analysis of gender but does so specifically in relation to psychological theory, research, and praxis. Gathering the work of sixty authors from different geographies, career stages, psychological sub-disciplines, methodologies, and experiences, the handbook showcases creativity in approach and diversity of perspective. The result is a work featuring a chorus of different voices, including diverse understandings of feminisms and power. Ultimately, the handbook presents a case for the importance of intersectionality and power for any feminist psychological endeavor.

Mistaking Africa Curtis Keim, Carolyn Somerville, 2021-12-27 For many in the west, the mention of Africa immediately conjures up images of safaris, ferocious animals, sparsely dressed tribesmen, and impenetrable jungles. Newspaper headlines rarely touch on Africa, but when they do, they often mention authoritarian rule, corruption, genocide, devastating illnesses, or civil war. Advertising, movies, amusement parks, cartoons, and many other corners of society all convey strong mental images of the continent that together form a collective consciousness. Few think to question these perceptions or how they came to be so deeply lodged in western minds. *Mistaking Africa* looks at the historical evolution of this mind set and examines the role that popular media plays in its creation. The authors address the most prevalent myths and preconceptions and demonstrate how these prevent a true understanding of the enormously diverse peoples and cultures of Africa. Updated throughout, the fifth edition considers images of Africa from across the world and provides new analysis of what Africans are doing themselves to rewrite the stories of their continent, particularly through social and digital media. *Mistaking Africa* is an important book for African studies courses and for anyone interested in unraveling misperceptions about the continent.
