Conceptualising and Measuring Work Identity Paul G.W. Jansen, Gert Roodt, 2014-10-08 This book provides a systematic overview on issues and challenges related to work identity and identification at work in the new South African workplace It shares results and measures of a work identity research project that was conducted in a variety of modern South African workplaces It looks at the concept of work identity in the light of a keen and growing interest in why people are becoming attached to involved in engaged with or committed to their work Still a relatively unexplored concept built on the foundations of different identity theory streams the

concept of work identity provides a fundamental reconsideration of explaining engaging behaviours at work Against the backdrop of a changing political and economic landscape and the impact these radical changes had on the South African workplace the main research question of the project was the South African employees question Who am I at work In search of the answer to that question the book explores the impact of South African employees life spheres and life roles on their choice of work related identification foci It further explores how identity work tactics and strategies are being used to develop and define their own work identities resulting in the conceptualisation and development of a work based identity measure *Applied Technologies* Miguel Botto-Tobar, Marcelo Zambrano Vizuete, Pablo Torres-Carrión, Sergio Montes León, Guillermo Pizarro Vásquez, Benjamin Durakovic, 2020-03-02 This first volume of the three volume set CCIS 1193 CCIS 1194 and CCIS 1195 constitutes the refereed proceedings of the First International Conference on Applied Technologies ICAT 2019 held in Quito Ecuador in December 2019 The 124 full papers were carefully reviewed and selected from 328 submissions The papers are organized according to the following topics technology trends computing intelligent systems machine vision security communication electronics e learning e government e participation Parklawn Computer Center User's Guide Parklawn Computer Center (U.S.), 1991 **Making Cities Resilient** Vishwa Raj Sharma, Chandrakanta, 2019-02-08 As the world has transformed so have cities Today cities are home to 54 percent of the world s population and by the middle of this century that figure will likely rise to 66 percent According to the United Nations UN Habitat I 1972 Habitat II 1996 and Habitat III 2016 summits cities are facing many serious challenges including growing inequality security concerns and the worsening impacts of climate change Uncontrolled urbanization has led to many problems haphazard growth of areas emergence of slums inadequate water and power supply poor sanitation shortage of transport and other civic amenities shrinking green spaces pollution crime and urban disaster risks such as fire flood road and industrial accidents etc Worldwide communities at the international national and local level are continuously working to improve human habitats In order to make our planet more sustainable the UN has moved from the Millennium Development Goals MDG to the Sustainable Development Goals SDG Among the latter the aim of SDG 11 is to make cities and human settlements inclusive safe resilient and sustainable In light of these challenges various terms have emerged to help understand urban issues Visualizing the problem the United Nations program Making Cities Resilient is focused on mitigating the disaster risk in urban areas This book analyzes terms such as sustainable resilient livable inclusive smart and world class city which have emerged in the process of combating urban challenges in today s world The book addresses emerging concepts for cities challenges and potentials urban environments health and planning policies Covering 14 large cities in India as well as case studies from Japan Singapore Thailand Malaysia Poland and Sweden it provides a regional dimension to and micro level perspective on urban issues **Statistics for Health, Life and Social Sciences** Denis Anthony, 2011 Includes endnotes answers to exercises and an appendix dataset Newsletter University of Michigan

Patient Handling in the Healthcare Sector Olga Menoni,Natale Battevi,Silvia Cairoli,2014-09-18 Hospital staff and caregivers are regularly exposed to biomechanical overload risk particularly at spine and shoulder level a risk factor that will continue to rise with the progressive aging of the population Patient Handling in the Healthcare Sector A Guide for Risk Management with MAPO Methodology Movement and Assistance of Hospital Patients details the analysis of patient handling

risk using the MAPO method in different areas of healthcare and helps you develop strategies to mitigate them Focusing on the organization of work this approach gives you the tools to Rapidly analyse the problem Rapidly identify solutions Effectively monitor the results of preventive actions One of the special features of this approach is that it employs tools that allow you to allocate financial resources to estimate what investments are needed to achieve specific results This means taking the decision making process out of the hands of ergonomics experts and putting it into those of healthcare facility administrators

Adolescent Psychiatry Leo Sher,Joav Merrick,2013-10-14 Psychiatric disorders in adolescents are an important social problem which is relevant to almost all healthcare professionals According to the results of The National Comorbidity Survey Adolescent Supplement NCS A the lifetime prevalence of anxiety behavior mood and substance use disorders among adolescents was 31.9% 19.1% 14.3% and 11.4% respectively Approximately 40% of participants in this survey with one class of disorder also met criteria for another class of lifetime disorder Comorbidity is increasingly recognized as a key feature of mental disorders among adolescents Female adolescents are more likely than males to have mood and anxiety disorders but less likely to have behavioral and substance use disorders Regretfully medical professionals are not sufficiently trained about adolescent psychiatric disorders For example primary care providers correctly identify less than a fourth of youth with a depressive or anxiety disorder Also many clinicians underestimate the importance of the problem of adolescent psychiatric illnesses and suicidal behavior Lack of skilled medical providers impedes the delivery of needed services to adolescents with mental health issues This coupled with a lag in the ability of primary health care services to incorporate psychiatric interventions and a failure of public health initiatives to pay attention to adolescent mental health problems has led to continuing gaps in care over decades despite the public pronouncements of needs In this book you will find relevant information for health professionals since we believe that the mental health of adolescents is essential for sustaining healthy and productive societies
