Multicultural Approaches in Math and Science ,1998 Teaching English to the World George Braine,2014-04-08
Teaching English to the World History Curriculum and Practice is a unique collection of English language teaching ELT
histories curricula and personal narratives from non native speaker NNS English teachers around the world No other book
brings such a range of international ELT professionals together to describe and narrate what they know best The book
includes chapters from Brazil China Germany Hong Kong Hungary India Indonesia Israel Japan Lebanon Poland Saudi Arabia
Singapore Sri Lanka and Turkey All chapters follow a consistent pattern describing first the history of English language
teaching in a particular country then the current ELT curriculum followed by the biography or the autobiography of an
English teacher of that country This consistency in the structuring of chapters will enable readers to assimilate the
information easily while also comparing and contrasting the context of ELT in each country The chapter authors all born in or
residents of the countries they represent and speakers of the local language or languages as well as English provide insider
perspectives on the challenges faced by local English language teachers There is clear evidence that the majority of English
teachers worldwide are nonnative speakers NNS and there is no doubt that many among them have been taught by
indigenous teachers who themselves are nonnative speakers This book brings the professional knowledge and experience of
these teachers and the countries they represent to a mainstream Western audience including faculty professionals and
graduate students in the field of ESL to the international TESOL community and to ELT teachers around the world
