Moye Ph.D., 2019-05-21 This book presents a comprehensive systematic approach to the development of curricula in higher education in which each component is configured to optimize learning The approach is based in an analysis of the psychophysics of the learner and employs theories of learning instruction and environment to design each component

Physical Language Learning Spaces in the Digital Age Felix A. Kronenberg, 2024-02-08 How do we intentionally design physical environments for language learning and teaching How can we build spaces that are inclusive accessible safe and equitable While the Covid 19 pandemic has advanced notions of online education it has also revealed the benefits and affordances of human to human interaction in physical learning spaces This book explores the design of physical spaces intended for language learning specifically From residential learning spaces to active classrooms from social and experiential spaces to zoom rooms and language centers from mobile community based learning to hybrid makerspaces language learners and educators have more choices than ever regarding their possible learning environments Changing pedagogies and new technologies provide ever more alternatives to the normalized technology of the classroom With a focus on creating new awareness of the affordances and benefits of physical spaces as active agents in the language learning and teaching processes this book takes a practical approach to introduce readers without any prior knowledge of design or architecture to the topic As language learning spaces need to consider stakeholders from diverse cultures Felix Kronenberg provides examples from language centers around the world including Asia Europe and the United States Readers will learn how to conceptualize and create supportive resilient flexible inclusive accessible affordable sustainable and safe physical learning spaces The book is an interdisciplinary introduction to this emerging field drawing from research in disciplines such as architecture learning spaces design second language acquisition pedagogy history and sociology

The Psychophysics of Learning John N. Moye Ph.D., 2021-06-22 The Psychophysics of Learning presents a learning system design approach that is

formulated by the strategies and techniques the brain uses to process external information and make sense of that information to the learning ecology of all learners *Routledge Revivals: Towards a New Theory of Organizations (1994)* John Hassard, Martin Parker, 2016-09-19 First published in 1994 the essays collected in this book explore the impact and current status of the ideas put forth in David Silverman's *The Theory of Organizations* and how they relate to future directions in organization theory After opening with a chapter by Silverman himself the subsequent chapters investigate key issues in the study of organizations including structure and agency the politics of organization theory and the meanings of post positivist organizational analysis Contemporaneous debates on postmodernism the emotions gender and structuration are discussed in the context of the development of organizational theory in the preceding twenty five years providing insights into the continuities within organizational theory and provoking thought about future directions *Towards a Theory of Schooling* D. Hamilton, 1989-05 **Exploring Education and Professional Practice** Kathleen Mahon, Susanne Francisco, Stephen Kemmis, 2016-12-20 This book was written to help people understand and transform education and professional practice It presents and extends the theory of practice architectures and offers a contemporary account of what practices are composed of and how practices shape and are shaped by the arrangements with which they are enmeshed in sites of practice Through its empirically based case chapters the book demonstrates how the theory of practice architectures can be used as a theoretical analytical and transformational resource to generate insights that have important implications for practice theory policy and research in education and professional practice These insights relate to how practices are shaped by arrangements and other practices present in specific sites of practice including early childhood education settings schools adult education and workplaces They also relate to how practices create distinctive intersubjective spaces so that people encounter one another in particular ways a in particular semantic spaces b that are realised in particular locations and durations in physical space time and c in particular social spaces By applying such insights readers can work towards changing practices by transforming the practice architectures that make them possible *Towards a Theory of Schooling* Hamilton, 1989-05-11 *Towards a Theory of Schooling* David Hamilton, 1989 This book examines long term changes in the form and function of schooling The work falls into three sections an introductory chapter five historical essays and a concluding chapter Chapter 1 unfolds the theoretical and practical considerations that governed the selection and organization of the historical essays The historical essays in chapters 2 through 6 address notable and pivotal episodes in the history of school organization Their titles are as follows On the Origins of the Educational Terms Class and Curriculum Schooling to Order Jean Baptist de la Salle and the Pedagogy of Elementary Education Adam Smith and the Moral Economy of the Classroom System On Simultaneous Instruction and the Emergence of Class Teaching The Recitation Revisited Chapter 7 builds upon the preceding essays by advancing a range of general propositions about the relationship among schooling society and educational change JAM *Social Realism, Knowledge and the Sociology of Education* Karl Maton, Rob

Moore,2010-01-06 Communicative Reason Patrick O'Mahony,2024-09-30 The book examines philosophical and sociological approaches within critical theory and more widely from the vantage point of communicative reason It seeks to revitalize the sociological dimension of critical theory by advancing a critical sociology of reason It does so fully in the knowledge that reason is a contentious concept in sociology and other disciplines Nonetheless building on Habermas's original insight it argues that an extensively modified version of communicative reason is indispensable This modified approach will draw extensively from Peirce's pragmatist semiotics and critical cognitive sociology Such a focus has significant implications for meta-theoretical, theoretical, empirical and methodological approaches in critical theory, critical sociology and related disciplines This book will be of interest to readers in the social sciences, humanities and philosophy who value the importance of a social theory of a reasonable society for their disciplines and for increasingly essential interdisciplinary activities The book will also appeal to many in critical theory and beyond who are interested in the cognitive foundations of normative orders including unjust or pathological as well as actually or potentially just foundations The book emphasizes both validity and critique within communicative reason and critical theory and accordingly presents a distinctive perspective on critical reconstructive research *Revival: Legitimacy Deficit in Custom: Towards a Deconstructionist Theory* (2001) Ben Chiagra,2017-07-05 Cover Half Title Dedication Title Page Copyright Page Table of Contents List of Treaties and Declarations List of Cases and Incidents List of Abbreviations Introduction 1 Juridification of Custom Introduction Etymology of Custom Custom as a Law creating Mechanism Unpacking Custom's Content On the Material Elements of Custom Publicists on Custom The ILA Committee on Formation of General International Law Customary International Law and Obligation Conclusion 2 International Organisation and Custom From 1920 to Contemporary Perspectives Introduction Sovereignty's Temporal Fortunes Attribution to the United Nations of Sovereign-like Competencies International Human Rights and Custom Conclusion 3 Legitimacy Deficit in Article 38 1 b's Jurisprudence Introduction Legitimacy Conclusion 4 Deconstructionism Normative Theory and Custom Introduction Deconstruction Customary International Law and Deconstructionist Critique Conclusion 5 Inauguration of New Norms of Customary Law in the Corfu Channel Case Introduction The ICJ Inaugurates Customary International Law in the Corfu Channel Case The ICJ Premises Custom on Violent Hierarchical Oppositions The Corfu Channel Case's Contribution to Understanding of Custom Conclusion 6 Custom and State Objection to Nascent Norms of Customary Law Introduction The ICJ Identifies Rules of Customary International Law on the Delimitation of Fisheries Zones The Persistent Objector in the Process of Custom Conclusion 7 Twining Custom with Treaty North Sea Continental Shelf Cases Introduction Background Positive Law Test of Customary International Law Legitimacy Deficit in Custom Conclusion 8 Conclusions Introduction Difficulties Submissions Bibliography Paradoxes in Education Rosemary Sage,2017-11-10 The world of 2017 is unrecognisable In September a robot YuMi with incredibly expressive nuances will conduct a Tuscan orchestra while Andrea Bocelli sings Woman is Fickle La donna mobile

Women, Their Lives, and the Law Victoria Barnes, Nora Honkala, Sally Wheeler, 2023-12-14 This collection of essays honours Rosemary Auchmuty Professor of Law at the University of Reading UK She has fostered the study of women's academic careers and more politically advanced progress on gender and equality issues including same sex marriage and property law Her research promotes the case of feminist legal history as a way of revealing the place of women and challenging dominant historical narratives that cast them aside Just as Rosemary's work does the book seeks to end the marginalisation and exclusion of women in the legal world by including them The book begins fittingly with a discussion of Miss Bebb the woman whose biography Auchmuty deployed to push feminist legal history into the mainstream It turns then to a discussion of women known and unknown and their struggles within the legal profession offering within those chapters a critical appraisal of the role of history and biography as a methodology From there it moves to consider feminist perspectives and critiques of the dominant structures of private law This is followed by chapters that explore those who educate the legal profession within the academy The chapters and the collection as a whole examine areas of law that have a deep significance for women's lives

Community Series: Towards a Meaningful Instrumental Music Education. Methods, Perspectives, and Challenges - Volume II Andrea Schiavio, Marja-Leena Juntunen, Dylan van der Schyff, Luc Nijs, 2024-02-26 Trying to understand the complex interplay

between effective learning and personal experience is one of the main challenges for instrumental music education. Much of the research that focuses on effective learning outcomes often adopts experimental methodologies that do not allow for a thorough examination of the subjective and social processes that accompany each student's musical journey. On the contrary, contributions dedicated to the detailed analysis of the learners' lived experience often do not offer generalizable outcomes to different types of learning and teaching.

Transforming Education in Practice Wai-yan Ronald Tang, 2021-12-09. This book inspires educational practitioners with special regard to the way how practice in the frontline service is able to inform leadership and policy decision. It empowers them to identify what features are counted as professional and how they could be turned into sources for developing wise judgment and eliciting creative acts in teaching, lesson planning and course design, collaboration and knowledge excavation to shape policy decision and planning. In addition, for those who are used to conceive the world and their practice from a positivist tradition, may find the insights of this book illuminating, particularly when they are looking for a paradigm shift in understanding their practice. Last but not least, educators and teacher educators in particular will find the ideas in this book more promising in escalating the awareness of teachers of the next generation towards what is good phronesis in terms of their professional attitude and actual performance informed by both *techne* and *episteme* in their relevant settings.

Deconstructing Teacher Education in Contemporary Times Alka Behari, 2025-09-11. The book provides a comprehensive overview of the field of teacher education and analyses its concepts, ideas, notions, theories, debates and practices. In this, the journey of the development of teacher education in the global context and the policy journey of teacher education in India is traced in an interesting manner. Several dimensions of teacher education are revisited with a view to compel the readers to reflect upon alternate ways of looking at them. An examination of how the underlying socio-political factors affect teacher education, the initial preparation of teachers and their continued professional development forms a significant part of the book. What are the debates and issues in teacher education? Are there ready-made solutions to resolve them? Are there questions that are better left open-ended which researchers continue to analyse and grapple with? Engaging the readers in such a reflective exercise and taking them on a journey of exploring the large and new vista that teacher education has come to embody will enable them to understand it both as a discipline and a field of practice. Given that teacher education is a compulsory component in all teacher education institutions, this anthology will be an essential reading for students, scholars, teachers and teacher educators. It will be useful and purposeful for policymakers, organisations and professionals working in the area of teacher education. The variety of themes covered and the diverse styles of writing coupled with a unifying thread of building up the discourse in teacher education in contemporary times endow the book with a multicultural flavour. A must-read for all.

Handbook of Education Policy Studies Guorui Fan, Thomas S. Popkewitz, 2020-06-02. This open access handbook brings together the latest research from a wide range of internationally influential scholars to analyze educational policy research from international, historical and interdisciplinary
