Golden Words Deepak Tickoo,2010-02-26 The anthology of essays and some one liners laid out in this book are nothing more than the author s perceptions on how he looks at things or wants people to believe what his outlook is though that may not always be true They should not be construed of someone trying to sermonize or push through with his opinion of things They are not an expert s word though someone like an expert does not really exist at all At times the author s ideas may confuse the reader to begin with but as they say great confusion leads to great awakening The motive of the author is not to confuse the reader but to arise doubt only to be enlightened profusely The essays though ostentatiously named Golden Words may not seem that golden to some rather they may look at it as if old wine has been packaged in a new bottle which is what basically they are The essays range from abstract philosophical issues to some contemporary real life issues and even though they are some body s perceptions they are open to debate The author claims to have taken the inspiration for these pieces from his life experiences at the same time laying no claim to living life the way these pieces are propounding Hope they make for a good reading The author can be reached at tikoo_deepak@yahoo.com
