Wagner**

What Was The Driving Force Behind European Imperialism Dbq:

European Imperialism in the Nineteenth and Twentieth Centuries Woodruff D. Smith, 1982 This is a small book on a very large subject It is written for the general reader and for students who want an overview of modern European imperialism and an indication of some of the major issues with which historians of imperialism are currently concerned Obviously such a book cannot go into detail on any aspect of the subject I have attempted wherever possible to use particular cases of imperialism to represent larger phenomena that occurred in many different places and at different times I have also included references to important works on the subjects discussed in each section of the book preference has been given to recently published studies and to those in English which are most likely to be available to the reader Although the book is not purely a narrative and is organized around a number of theses the presentation of the theses is necessarily abbreviated and the support for them incomplete They should be considered as means of structuring the material fuller exposition must await future publications Preface

The Driving Force of Imperialism in Our Era Ernest Mandel, 1972

The Driving Force of Imperialism in the Modern Era Paul Mattick, Peter Rush, Susan Wagner, 1972

European imperialism in Africa Halford Lancaster Hoskins, 1967

American imperialism, 1940

Empire Eternal Sinclair Jenkins, 2022-08-13 The men who founded these great civilizations are long gone but their blood still lives within us We are called to conquer Our age like every other age is a war of all against all for the domination of space Throughout the 19th and through the early 20th centuries the European Great Powers established direct control over the majority of the planet and suzerainty over the rest Despite the crumbling of those empires under the hammer blows of two world wars and the machinations of the United States and the Soviet Union the feats by which they were established and the titanic efforts of the brave few that fought to preserve them still reverberate in history Brave warriors conquered foreign lands planted their flags and tried to grow new cultures that mirrored their own Sinclair Jenkins writer thinker and dissident lays out a resolute defense of and advocacy for that force of will which made the age of European Imperialism possible From the conquering of the American West to the bloody Rif War to the heroic defenses of Katanga and Rhodesia Empire Eternal In Defense of Imperialism is a tour de force of the various chapters of European Imperialism It is said that men did not love Rome because it is great Rome was great because men loved her These pages make it clear that likewise the European empires were not great because of some kind of overwhelming material superiority but because of the eternal flame that pushed men to sacrifice for them a flame that can never be extinguished

European Imperialism Andrew N. Porter, This study surveys the growth of European intervention outside Europe between 1860 and 1914 It treats its subject imperialism as a process of increasing contact influence and control rather than as the nature and consequences of colonial rule The problems of defining imperialism are considered alongside various analytical approaches to the term In examining the controversial historiographical literature surrounding this subject the book criticises particular explanations and introduces readers to some of the new directions in

research and inquiry currently being explored by historians *Ancient and Modern Imperialism (1910)* The Earl of Cromer, 2008-06-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work Imperialism in Joseph Conrad's Heart of Darkness Geoffrey Schöning, 2003-02-20 Essay from the year 2002 in the subject English Language and Literature Studies Literature grade A University of Auckland Englisch Department course Seminar Victorian Literature Stage III 5 6 Semester language English abstract He Kurtz began with the argument that we whites from the point of development we had arrived at must necessarily appear to them savages in the nature of supernatural beings by the simple exercise of our will we can exert a power for good practically unbounded It gave me the notion of an exotic Immensity ruled by an august Benevolence Marlow Write an essay discussing whether you think Heart of Darkness endorses this view of the colonizing enterprise Being a student of history and of European colonialism in particular I have had the pleasure to hear of Heart of Darkness several times Whether it was introduced as a literary bonus to lectures on the notorious atrocities in the Congo or merely served as a vague metaphorical reference in scientific and popular articles Conrad s novel seemed to produce unanimous tenor One of fiction s strongest statements about imperialism 1 it was one that like no other Victorian literary work addressed so radically this great era 2 Readers like me would thus deny the above quotation in a sort of reflex retort pointing to the fact that imperial rule might have been immense in its impact on native life but was certainly far from being benevolent Rapacity and ruthlessness dominated under the spurious cloak of philanthropic interest just as Heart of Darkness so clearly shows Apparently It is the aim of this essay to dive beyond such well nigh automatic associations and scrutinise the novel s treatment of imperialism equipped with the tools of literary method In which way does Heart of Darkness really depict the colonial enterprise And what are the long term consequences this view entails I e what kind of general judgement can be inferred from the novel Since imperialism is first and foremost a phenomenon rooted in time insights from the historical discipline might be helpful and wherever appropriate will be used too Conrad himself expressed this belief in synthesis between history and literature emphasising that the novelist is a historian the preserver the keeper the expounder of human experience 3 Nonetheless it is the novel his fictionalised account which remains the basis of any kind of interpretation

Imperialism John Gallagher, 1976 *European Imperialism, 1860-1914* Andrew Neil Porter, 1994 **The Age of Imperialism** Robin W. Winks, 1969 **Imperialism and colonialism** H.L. Wesseling, 2000 The Literature of European Imperialism, 1815 to 1939; a Bibliography , 1967 *Imperialism* J.A. Hobson, 2018-10-24 Originally published in 1902 this study expands on the ideas of imperialism which were a key focus of many countries in the early twentieth century particularly in Great Britain Hobson starts by outlining the economic origins of imperialism with an analysis on methodology

and results before delving into the theory and practice of Imperialism and its political significance at the turn of the century This edition was first published in 1938 and was completely revised to reflect the changes that occurred in world history from first publication This title will be of interest to students of Politics or History The Literature of European Imperialism Lowell Joseph Ragatz, 1970 The False Dawn Raymond F. Betts, *The Literature of European Imperialism, 1815-1939*, 1944 *The False Dawn* Raymond F. Betts, 1975-12-12 The False Dawn was first published in 1975 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions As the author explains the false dawn that greeted and disappointed the visitors in E M Forster's A Passage to India is a literary image that might serve as a value judgment of modern overseas empire in general Commenting that the term empire is now badly tarnished Professor Betts points out that no bright dawn of understanding has yet appeared on the academic horizon With this perceptive viewpoint he traces the course of European imperialism beginning with the Treaty of Paris in 1763 and ending with a final glance toward the Western Front in August 1914 Reviewing the book in the Historian Lawrence J Baack calls it a clear and concise essay on the nature of European imperialism In its review Choice says Undergraduates and graduate students alike will welcome this book as a readable general introduction to more technical works The Burden of Empire Ian Copland, 1990 China Colonialism Famine French foreign legion Japan Kublai Khan Opium wars Sino Japanese war 1894 95 Vietnam
