Michael M. Baden

What Does A Toxicology Report Show:

American Autopsy Michael M. Baden, 2023-01-17 A revealing history of covering up the true causes of deaths of BIPOC in custody from the forensic pathologist whose work changed the course of the George Floyd Eric Garner and Michael Brown cases Dr Michael Baden has been involved in some of the most high profile civil rights and police brutality cases in US history from the government's 1976 re-investigation of the assassination of Martin Luther King Jr to the 2014 death of Michael Brown whose case sparked the initial Ferguson protests that grew into the Black Lives Matter movement The playbook hasn't changed since 1979 when Dr Baden was demoted from his job as New York City's Chief Medical Examiner after ruling that the death of a Black man in police custody was a homicide So in 2020 when the Floyd family wary of the same system that oversaw George Floyd's death needed a second opinion Dr Baden is who they called In these pages Dr Baden chronicles his six decades on the front lines of the fight for accountability within the legal system including the long history of medical examiners of using a controversial syndrome called excited delirium a term that shows up in the pathology report for George Floyd to explain away the deaths of BIPOC restrained by police In the process he brings to life the political issues that go on in the wake of often unrecorded fatal police encounters and the standoff between law enforcement and those they are sworn to protect Full of behind the scenes drama and surprising revelations **American Autopsy** is an invigorating and enraging read that is both timely and crucial for this turning point in our nation's history

A definitive look at Michael Jackson's final minutes revealing for the first time the shocking details behind the tragic death of one of the world's biggest pop stars. On June 25th 2009 the world was rocked by the tragic news that Michael Jackson, the biggest and most influential music icon since Elvis Presley, had died. He was only 50 years old when paramedics pronounced him dead on arrival at a Los Angeles hospital. For weeks after his death, speculation and rumor abounded concerning the drugs in Jackson's system and the role Conrad Murray, the singer's personal physician, had played in his death. In 2011 Murray was tried and convicted of involuntary manslaughter for which he served two years in prison. Now for the first time, readers have access to a comprehensive and truly horrifying account of the crucial moments leading up to Jackson's demise. Drawing on court documents and testimonials, **83 Minutes** presents a multi-perspective tracking of every individual involved and the part they played as the tragedy unfolded, examining forensically the mystery of the 83 minutes that elapsed from the moment Dr Murray suggested he found Jackson not breathing to the moment the singer's lifeless body was wheeled into hospital. Evenhanded and unbiased, Matt Richards and Mark Langthorne's account is rich with detail, including the specific cocktail of drugs employed in an attempt to keep Jackson alive and the harrowing conditions in which the troubled genius's life ended. Included as well is the story of the legal struggle for control of Jackson's assets that followed his death, where Richards and Langthorne report that the combined earnings of Jay Z, Taylor Swift, and Kanye West since Michael Jackson died come nowhere near the revenues Jackson has earned for his estate after his death. Written with documentary flair, this powerful and compelling book is already emerging as the definitive account of one of the darkest hours in music history. **People v. Budzyn; People v. Report, 1972. **The Enemy Inside** Steve Martini, 2015-05-12. Defending an innocent young man, defense attorney Paul Madriani uncovers a morass of corruption and greed that leads to the highest levels of political power in this electrifying tale of suspense from New York Times bestselling author Steve Martini. One of the most successful lawyers in the country, Olinda Serna is a master at managing money as well as her influential clients. After years of fierce combat in the political trenches, Serna knows all the dirty secrets where the bodies are buried and how deeply they are stacked. When she's killed in a roadside crash in the high desert of Southern California, powerful heads in Washington begin to panic, worried that their secrets may not be safe anymore. Alex Ives, a friend of Paul Madriani's daughter, is accused of vehicular manslaughter in Serna's death. Ives claims he had only one drink on the night of the accident, yet he can't remember anything between the time he left for a party north of San Diego and the moment he woke up in a hospital the next morning. He's still dazed and a little bruised, but also obviously very afraid. After all, a woman is dead, and he's sure he didn't kill her. To save an innocent young man's life, the brilliant defense attorney must uncover everything he can about Serna and her clients, no matter how

unsavory a search that will lead him into a vortex of corruption and at its center a devious killer poised to strike again
