Johns Hopkins Evidence-Based Practice for Nurses and Healthcare Professionals: Model & Guidelines, Fifth Edition Kim Bissett, Judy Ascenzi, Madeleine Whalen, 2025-04-16 Johns Hopkins Evidence Based Practice for Nurses and Healthcare Professionals has proven to be one of the most foundational books on EBP in nursing and healthcare Building on the strength of previous versions the fifth edition is fully revised to present the updated Johns Hopkins Evidence Based Practice JHEBP model representing some of the biggest changes to date The revised simplified model presents updates to the categories of evidence appraisal tools and emphasis on using suitable pre appraised evidence These changes better support real life EBP projects and the changing evidence based healthcare landscape NEW key features of the book include New chapter on Interprofessional Teams New chapter on real world implementation Simplified appraisal process Improved Evidence Phase Decision Tree The impact of COVID 10 on EBP Emerging issues such as Artificial Intelligence New exemplars showcasing the JHEBP model in action More direction for searching and screening to streamline the process New ways of characterizing best evidence recommendations TABLE OF CONTENTS Part I Evidence Based Practice Overview Chapter 1 Evidence Based Practice Yesterday Today and Tomorrow Chapter 2 The Johns Hopkins Evidence Based Practice JHEBP Model for Nurses and Healthcare Professionals HCPs Process Overview Part II Practice Question Evidence Translation PET Chapter 3 The EBP Team Chapter 4 The Problem Chapter 5 The EBP Question Chapter 6 Searching for Evidence Chapter 7 Evidence Chapter 8 Summary synthesis and best evidence recommendations Chapter 9 Translation Chapter 10 Implementation Chapter 11 Dissemination Part III Exemplars Chapter 12 Exemplars Part IV Using the JHEBP Tools Chapter 13 Lessons From Practice Using the JHEBP Tools Part V Appendices A PET Process Guide B Question Development Tool C Stakeholder Analysis and Communication Tool D Hierarchy of Evidence Guide E Research Evidence Appraisal Tool F Nonresearch Evidence Appraisal Tool G Individual Evidence Summary Tool H Synthesis and Recommendations Tool I Translation and Action Planning Tool Publication Guide *The True Value of CSR* B. Fryzel, 2014-12-22 By considering the importance of Corporate Social Responsibility CSR as a business paradigm but also as a growing scepticism about it s outcomes The True Value of CSR answers questions about true value behind this concept motivations of firms embedding CSR in their core strategies and a capacity of CSR to make a real difference on the market Dark Data David J. Hand, 2022-02-15 Data describe and represent the world However no matter how big they may be data sets don t indeed cannot capture everything Data are measurements and as such they represent only what has been measured They don t necessarily capture all the information that is relevant to the questions we may want to ask If we do not take into account what may be missing unknown in the data we have we may find ourselves unwittingly asking questions that our data cannot actually address come to mistaken conclusions and make disastrous decisions In this book David Hand looks at the ubiquitous phenomenon of missing data He calls this dark data making a comparison to dark matter i e matter in the

universe that we know is there but which is invisible to direct measurement He reveals how we can detect when data is missing the types of settings in which missing data are likely to be found and what to do about it It can arise for many reasons which themselves may not be obvious for example asymmetric information in wars time delays in financial trading dropouts in clinical trials deliberate selection to enhance apparent performance in hospitals policing and schools etc What becomes clear is that measuring and collecting more and more data big data will not necessarily lead us to better understanding or to better decisions We need to be vigilant to what is missing or unknown in our data so that we can try to control for it How do we do that We can be alert to the causes of dark data design better data collection strategies that sidestep some of these causes and we can ask better questions of our data which will lead us to deeper insights and better decisions

Wall Street, Reforming the Unreformable David E McClean, 2015-10-06 McClean argues that a collective move towards stewardship within the financial industry is necessary to restore ethical behaviour and public confidence Drawing on practical examples and offering new policy recommendations this unique philosophical study paints a picture of what a truly ethical trading culture of the future might look like

Sport Policy and Politics in an Era of Austerity Dan Parnell, Peter Millward, Paul A. Widdop, Neil King, Anthony May, 2019-03-27 Austerity is perhaps the major challenge of our times given the speed at which it arrived and the consequences of its impact upon society The global financial crash and economic downturn was the catalyst for change and against a backdrop of advice from experts adverse to Keynesian economics the ideology of austerity grew and became the dominant thinking to steer economies out of recession This comprehensive volume draws upon both quantitative and qualitative research methodologies to provide a varied and contextually rich insight into sport policy and politics in an era of austerity The authors cover a wide range of issues in a variety of organisational contexts and geographies including sports participation across different socio demographic groups the impact of austerity on the provision of community sports disability sport public management of sport facilities the performance of public sport facilities with respect to access finance utilisation and customer satisfaction the potential impact of austerity on sport for development elite sport and social inclusion and poverty This book makes a significant contribution to the current academic debate while raising important considerations for policymakers and managers It was originally published as a special issue of *The International Journal of Sport Policy and Politics*

The Fate of Liberal Arts in Today's Schools and Colleges William Hayes, 2015-12-11 It is the purpose of this book to examine the ever changing meaning of the term liberal arts and to trace its development from antiquity to the present In doing so the text will compare and contrast the values of such an education with the other important objective of schools and colleges which is to prepare students with appropriate occupational training The book will highlight the arguments of both points of view In doing so attention will be paid to the contributions to society of those who have been exposed to a variety of educational curricula As part of the study the impact of the community college will be considered along with the impact of recent initiatives such as the Nation at Risk Report No Child Left Behind

Race to the Top and the Common Core Finally the text will conclude with an attempt to suggest the direction that will determine the fate of liberal arts in schools and colleges

The Present Professor Elizabeth A. Norell,2024-12-03 It s hard to

learn when you're under stress and a lot harder when your teacher is struggling with stress too. In a world where stress is unavoidable, where political turmoil, pandemic fallout, and personal challenges touch everyone, this timely book offers much needed guidance for cutting through the emotional static that can hold teachers back. A specialist in pedagogical strategies with extensive classroom experience, Elizabeth A. Norell explains how an educator's presence or authenticity can be critical to creating transformational spaces for students. And presence, she argues, means uncovering and understanding one's own internal struggles and buried insecurities, stresses often left un confronted in an academic culture that values knowing over feeling. Presenting the research on how and why such inner work unlocks transformational learning, *The Present Professor* equips educators with the tools for crafting a more authentic presence in their teaching work. At a time of crisis in higher education as teachers struggle to find new ways to relate to, think about, and instruct students, this book holds a key. Implementing more inclusive pedagogies, Norell suggests, requires sorting out our own identities. In short, if we want to create spaces where students have the confidence, comfort, and psychological safety to learn and grow, we have to create spaces where we do too. *The Present Professor* is dedicated to that proposition and to helping educators build that transformational space. *Engineering and Mining Journal*, 1881 *The Life Cycle of a CEO*, Claudius A. Hildebrand, Robert J.

Stark, 2024-10-22. A groundbreaking roadmap for CEOs to achieve high performance and navigate the predictable crises of corporate life. Being appointed CEO is seen by many as the pinnacle of success in business, but it is actually the first step in a journey of evolving stages requiring ongoing personal reinvention. In an unprecedented study of the individual performance of every twenty-first century CEO of the S P 500 combined with over 100 in-depth interviews of CEOs and board directors, Claudius A. Hildebrand and Robert J. Stark discovered the CEO Life Cycle, a series of five stages: launch, calibration, reinvention, complacency trap, and legacy. Each presents distinctive headwinds and tailwinds that require leaders to develop the fresh skills and strategies needed to thrive. Successful CEOs are often portrayed as fully formed heroes endowed with exceptional leadership traits. Hildebrand and Stark break through the mythology to provide unique understanding, explaining how outstanding leaders surmount predictable challenges and develop the mental fortitude, emotional resilience, and self-awareness required to keep adapting. Invaluable not only for CEOs to take their game to the next level of high performance, but also for executives who envision themselves in the role. *The Life Cycle of a CEO* provides the unvarnished truth about what it takes to be a successful CEO. **Introduction to Teaching**, Gene E. Hall, Linda F. Quinn, Donna M.

Gollnick, 2018-11-29. An ideal introductory text for aspiring teachers. *Introduction to Teaching: Making a Difference in Student Learning* is grounded in the realities and complexities found in today's schools. Acclaimed authors Gene E. Hall, Linda F. Quinn, and Donna M. Gollnick thoroughly prepare readers to make a difference as teachers, presenting firsthand stories and evidence-based practices while offering a student-centered approach to learning. The authors focus on how to address one of the biggest challenges facing many of today's schools: ensuring that all students are learning and help teachers prioritize student

learning as their primary focus From true to life challenges that future teachers will face such as high stakes testing reduced funding low retention and Common Core State Standards to the inspiration and joy they will experience throughout their teaching careers the Third Edition paints an importantly authentic picture of the real life of a teacher **Mobile**
