Subcommittee on Commerce, Justice, Science, and Related Agencies,2015 **New Trends in Liberal and Social Sciences** Andreea Stoian Karadeli,2017-01-09 The specialist as we know it in the modern age is a creation of modernity Up until the modern age scholars were known for their expertise in multiple areas From Avicenna Ibn i Sina and Hezarfen Ahmet Celebi to Leonardo da Vinci and Galileo many medieval Renaissance and Enlightenment scholars were polymaths mastering knowledge from several fields The needs of the modern age created specialists focusing deeply on one field At the convergence of postmodernism and the age of the Internet social cultural and economic realities of increasingly diverse societies have created a new need for the revival of the polymath Emerging globalization post Cold War triggered rapid social change that cannot be explained from the perspective of a single discipline This reality has recently increased the interest in interdisciplinary studies but established academic work that is focused on single disciplines still dominates the academic world and it offers limited opportunities for the publication of interdisciplinary studies One of the aims of this book is to become one example for interdisciplinary work It also aims to prepare the ground for the cultivation of scholars that can specialize in more areas on the long term This book is made out of sixteen articles that bring together different disciplines such as educational sciences law linguistics economics culture and sports All articles passed the referee process Bearing in mind that the book is the result of a multidisciplinary work the respect towards each discipline is shown by leaving the referencing and methodology according to the common usage of the relevant discipline Therefore some authors have used the Chicago Manual of Style within their articles while others have used the APA system **Whole-body**

Electromyostimulation: A Training Technology to Improve Health and Performance in Humans? Wolfgang Kemmler,Michael Fröhlich,Heinz Kleinöder,2020-07-08 Strategies to Improve Cardiac Arrest Survival Institute of Medicine,Board on Health Sciences Policy,Committee on the Treatment of Cardiac Arrest: Current Status and Future Directions,2015-09-29 Cardiac arrest can strike a seemingly healthy individual of any age race ethnicity or gender at any time in any location often without warning Cardiac arrest is the third leading cause of death in the United States following cancer and heart disease Four out of five cardiac arrests occur in the home and more than 90 percent of individuals with cardiac arrest die before reaching the hospital First and foremost cardiac arrest treatment is a community issue local resources and personnel must provide appropriate high quality care to save the life of a community member Time between

onset of arrest and provision of care is fundamental and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest Specific actions can be implemented now to decrease this time and recent advances in science could lead to new discoveries in the causes of and treatments for cardiac arrest However specific barriers must first be addressed Strategies to Improve Cardiac Arrest Survival examines the complete system of response to cardiac arrest in the United States and identifies opportunities within existing and new treatments strategies and research that promise to improve the survival and recovery of patients The recommendations of Strategies to Improve Cardiac Arrest Survival provide high priority actions to advance the field as a whole This report will help citizens government agencies and private industry to improve health outcomes from sudden cardiac arrest across the United States Space Countermeasures and Medicine - Implementation into Earth medicine and Rehabilitation Elena S. Tomilovskaya,Nora Petersen,Jancy McPhee,Satoshi

Iwase,Nandu Goswami,Steven Platts,2023-09-08 The effects of microgravity on the human organism have been studied for over 60 years The experience of short and long term space flights revealed alterations in multiple physiological systems either in the course of the flight or afterward Some of these changes represent serious risks for crew health and functional capacity This fact served as the trigger for multiple countries with space program participants to develop spaceflight countermeasures and medical support systems These activities are intended to counteract space flight effects such as axial and support unloading muscle disuse monotony fluid redistribution sensory deficit etc Some countermeasures have been adapted from Earth medicine and sports while others have been created especially for space flights Many of the observed space flight effects have similarities to conditions seen on Earth such as decrease of motor activity in aging people immobilized patients and professions associated with forced physical inactivity and isolation Thus many space countermeasures and medical support systems can be applied in Earth medicine and rehabilitation For example countermeasures like loading suits lower body negative pressure suits electromyostimulation of various regimens water salt supplements vestibular training means etc have been used in Earth medicine and sports conditioning over the last 20 years
