Neoliberalism Economic Policy and the Collapse of the Public Sector

Lionel D. Lyles PhD., 2018-07-13 My book demonstrates how classical liberalism was the foundation upon which Thomas Jefferson George Washington Alexander Hamilton and others wrote the Declaration of Independence Constitution and the Bills of Rights however it was rolled back by 1980 and replaced with neoliberalism which was championed by the Reagan Administration In short this ideology has one main aim and that is to shrink government cut the budgets of social programs and give away billions of taxpayer dollars to private business in the form of tax breaks During the Jindal administration and by the end of its first term more than 7 billion worth of tax breaks had been given away to private business A surplus of 1 billion left in the Louisiana treasury by outgoing governor Kathleen Blanco after Hurricane Katrina was given away by the end of the first two months of its first term Today the Louisiana legislature is currently facing a 650 million fiscal cliff and no doubt more budget cuts are in store for the Louisiana public sector

Education Directory , 1968 *1980 Census of Population and Housing* , 1983 Place, Race, and Identity Formation Ed Douglas McKnight, 2017-04-07 In this work of curriculum theory Ed Douglas McKnight addresses and explores the intersections between place with specific discussion of Kincheloe s and Pinar s conceptualization of place and identity and race specifically Winthrop Jordan s historical analysis of race as an Anglo European construction that became the foundation of a white mythos To that end he employs a form of narrative construction called curriculum vitae course of life a method of locating and delineating identity formation which addresses how theories of place race and identity formation play out in a particular concrete life By working through how place racializes identity and existence the author engages in a long Southern tradition of storytelling but in a way that turns it inside out Instead of telling his own story as a means to romanticize the sins of the southern past he tells a new story of growing up within the white discourse of the Deep South in the 1960s and 70s tracking how his racial identity was created and how it has followed him through life Significant in this narrative is how the discourse of whiteness and place continues to

express itself even within the subject position of a curriculum theorist teaching in a large Deep South university The book concludes with an elaboration on the challenges of engaging in the necessary anti racist complicated conversation within education to begin to work through and cope with heavy racialized inheritances **Manufacturers Record** ,1929 1980 Census of Population ,1984 *Digest of Education Statistics* ,1994 Contains information on a variety of subjects within the field of education statistics including the number of schools and colleges enrollments teachers graduates educational attainment finances Federal funds for education libraries international education and research and development **Digest of Education Statistics** Thomas D.
