Intergenerational Solidarity in Children's Literature and Film Justyna Deszcz-Tryhubczak, Zoe Jaques, 2021-02-01 Winner of the 2023 Edited Book Award from the International Research Society for Children's Literature Contributions by Aneesh Barai Clémentine Beauvais Justyna Deszcz-Tryhubczak Terri Doughty Aneta Dybska Blanka Grzegorzczak Zoe Jaques Vanessa Joosen Maria Nikolajeva Marek Oziewicz Ashley N Reese Malini Roy Sabine Steels Lucy Stone Björn Sundmark Michelle Superle Nozomi Uematsu Anastasia Ulanowicz Helma van Lierop Debrauwer and Jean Webb

Intergenerational solidarity is a vital element of societal relationships that ensures survival of humanity It connects generations fostering transfer of common values cumulative knowledge experience and culture essential to human development In the face of global aging changing family structures family separations economic insecurity and political trends pitting young and old against each other intergenerational

solidarity is now more than ever a pressing need Intergenerational Solidarity in Children s Literature and Film argues that productions for young audiences can stimulate intellectual and emotional connections between generations by representing intergenerational solidarity For example one essayist focuses on Disney films which have shown a long time commitment to variously highlighting and then conservatively healing fissures between generations However Disney Pixar s Up and Coco instead portray intergenerational alliances young collaborating with old the living working alongside the dead as necessary to achieving goals The collection also testifies to the cultural social and political significance of children s culture in the development of generational intelligence and empathy towards age others and positions the field of children s literature studies as a site of intergenerational solidarity opening possibilities for a new socially consequential inquiry into the culture of childhood

Jungian Perspectives on Indeterminate States Elizabeth Brodersen, Pilar Amezcaga, 2020-08-09 In *Jungian Perspectives on Indeterminate States* Betwixt and Between Borders Elizabeth Brodersen and Pilar Amezcaga bring together leading international contributors to analyse and interpret the psychological impact of contemporary border crossing both literally and figuratively Each chapter assesses key themes such as migration culture gender and identity formation through a Jungian lens All the contributors sensitively explore how creative forms can help mitigate the trauma experienced when one is forced to leave safety and enter unknown territory and examines the specific role of indeterminacy liminality and symbols as transformers at the border between culture race and gender The book asks whether we are able to hold these indeterminate states as creative liminal manifestations pointing to new forms integrate the shadow other as potential and allow sufficient cross border migration and fertilization as permissible It makes clear that societal conflict represents a struggle for recognition and identity and elucidates the negative experiences of authoritarian structures attached to disrespect and misrecognitions This interdisciplinary collection will offer key insight for Jungian analysts in practice and in training psychotherapists anthropologists political and cultural theorists and postgraduate researchers in psychosocial studies It will also be of great interest to readers interested in migration sexuality gender race and ethnicity studies

Studio Ghibli Animation as Adaptations Dominic J. Nardi, Keli Fancher, 2025-05-15 This collection investigates how Hayao Miyazaki Isao Takahata and other Studio Ghibli storytellers have approached the process of reimagining literary sources for animation Studio Ghibli is renowned for its original storytelling in films like *My Neighbor Totoro* but many of its most famous films including *Howl s Moving Castle* and *Ponyo* have their origins in pre existing novels manga or fairy tales Studio Ghibli s adaptations seldom directly translate source material to animation but instead transform the works to incorporate themes or imagery central to the studio s sensibilities *Studio Ghibli Animation as Adaptations* explores how these adaptations often blur genre boundaries and raise questions about what constitutes fidelity to source material The collection also shows how the studio reinterprets and recontextualizes stories across cultures for Japanese audiences and across mediums like manga

The Routledge Companion to Children's Literature and Culture. Claudia Nelson, Elisabeth Wesseling, Andrea Mei-Ying Wu, 2023-11-30. Focusing on significant and cutting-edge preoccupations within children's literature scholarship, *The Routledge Companion to Children's Literature and Culture* presents a comprehensive overview of print, digital, and electronic texts for children aged zero to thirteen as forms of world literature participating in a panoply of identity formations. Offering five distinct sections, this volume familiarizes students and beginning scholars with key concepts and methodological resources guiding contemporary inquiry into children's literature. Describes the major media formats and genres for texts expressly addressing children. Considers the production, distribution, and valuing of children's books from an assortment of historical and contemporary perspectives, highlighting context as a driver of content. Maps how children's texts have historically presumed and prescribed certain identities on the part of their readers, sometimes addressing readers who share some part of the author's identity, sometimes seeking to educate the reader about a presumed other, and in recent decades increasingly foregrounding identities once lacking visibility and voice. Explores the historical evolutions and trans-regional contacts and interconnections in the long process of the formation of global children's literature, highlighting issues such as retranslation, transnationalism, transculturality, and new digital formats for considering cultural crossings and renegotiations in the production of children's literature. Methodically presented and contextualized, this volume is an engaging introduction to this expanding and multifaceted field.

British Children's Literature in Japanese Culture. Catherine Butler, 2023-09-21. Whether watching Studio Ghibli adaptations of British children's books, visiting Harry Potter sites in Britain, or eating at Alice in Wonderland-themed restaurants in Tokyo, the Japanese have a close and multifaceted relationship with British children's literature. In this, the first comprehensive study to explore this engagement, Catherine Butler considers

its many manifestations in print on the screen in tourist locations and throughout Japanese popular culture Taking stock of the influence of literary works such as Gulliver's Travels Alice's Adventures in Wonderland The Tale of Peter Rabbit Tom's Midnight Garden and the Harry Potter series this lively account draws on literary criticism translation film and tourist studies to explore how British children's books have been selected translated understood adapted and reworked into Japanese commercial touristic and imaginative culture Using theoretically informed case studies this book will consider both individual texts and their wider cultural contexts translations and adaptations such as the numerous adaptations of British children's books by Studio Ghibli and others the dissemination of distinctive tropes such as magical schools into Japanese children's literature and popular culture and the ways in which British children's books and their settings have become part of way that Japanese people understand Britain itself

Four British Fantasists Charles Butler, 2006-04-25 *Four British Fantasists* explores the work of four of the most successful and influential fantasy writers of the generation who rose to prominence in the second Golden Age of children's literature in Britain Susan Cooper Alan Garner Diana Wynne Jones and Penelope Lively Drawing on history archeology social geography anthropology and postcolonial theory as well as literary criticism Butler provides a series of new perspectives through which to view these writers' achievements He begins by highlighting some points of biographic coincidence e.g. all four authors were children during WWII all were born within a year or two of each other and all attended Oxford University in the early 1950s when C.S. Lewis and J.R.R. Tolkien were publishing their seminal fantasies and questions if these factors play any significant role in the development of these fantasy writers The author then uses this question as the springboard for a case study in the assessment of biographical and literary influence The book also considers the role played by Britain itself in determining the shape and preoccupations of these writers' fiction Britain is a land with a long history in which contemporary life is constantly juxtaposed with evidence of the past in the form of ancient buildings historic sites and archeological remains By placing the work of Cooper Garner Jones and Lively in the context of British culture and of their own time Butler provides a key to their fascination with history mythology and magic and to the ways in which that fascination has found expression in their fiction Students of children's literature and of fantasy literature as well as readers who are interested in the lives of these four subject authors will find this an insightful read

Routledge Handbook of Japanese Cinema Joanne Bernardi, Shota T. Ogawa, 2020-08-09 The *Routledge Handbook of Japanese Cinema* provides a timely and expansive overview of Japanese cinema today through cutting edge scholarship that reflects the hybridity of approaches defining the field The volume's twenty one chapters represent work by authors with diverse backgrounds and expertise recasting traditional questions of authorship genre and industry in broad conceptual frameworks such as gender media theory archive studies and neoliberalism The volume is divided into four parts each representing an emergent area of inquiry Decentring Classical Cinema Questions of Industry Intermedia as an Approach The Object Life of Film This is the first anthology of Japanese cinema scholarship to span the temporal framework of 200 years

from the vibrant magic lantern culture of the nineteenth century through to the formation of the film industry in the twentieth century and culminating in cinema's migration to gaming surveillance video and other new media platforms of the twenty first century This handbook will prove a useful resource to students and scholars of Japanese studies film studies and cultural studies more broadly
