

HOW TO WRITE A CV

WHAT IS A CV?

CV stands for **Curriculum Vitae**. It is a document highlighting an applicant's academic and professional history to convince an employer that they would be a valuable employee. The CV should tell your potential employer all about your education, your qualifications, and any skills you have that make you a prime candidate for the job. You can also include a small section about your personal life, but anything on the CV should be relevant to the position or industry you are applying for. You must include all of your contact information as well so that the employer can get in touch with you regarding their decision.

WHAT ARE THE KEY DIFFERENCES?

CV

&

RESUME

- a more extensive document than a resume
- can include more about yourself and your accomplishments to appeal to the employer
- can be any number of pages
- unlimited amount of information that can be included
- less flexible structure
- each category should be chronological to show your professional and academic progression

- makes more sense to forgo the categorization and strict formatting that is common with a CV
- typically only a page or two
- limited amount of information
- customize information more heavily for different positions
- more concise
- relevant skills, jobs, and achievements can be organized however the applicant thinks is best

HOW TO WRITE A CV

- It is better to not make your application too extensive so that your potential employer can quickly get a feel for if you are the right candidate for the job.
- You get straight to the point by introducing yourself in a short personal profile and explaining what you could bring to the job.
- You should have your personal details visible right at the top of your CV and provide several means of contact, primarily an email address and a telephone number.
- You can move on to explaining your employment and academic history in their own sections.
- You should have a separate section where you bullet points your skills as well, but just list them and then go into depth about them when talking about your previous jobs and education to demonstrate how everything ties together to make you the perfect candidate.
- You should only mention things that are relevant to your application on the CV, so focus on outlining everything that made you feel ready to apply for the position and use this document as a way to show your potential employer the type of employee you would be.

Writing Your Nursing Portfolio: a Step-By-step Guide Fiona Timmins, Anita Duffy, 2011-04-16. I am delighted to endorse this practical and accessible guide to writing and developing a portfolio for nurses. Unlike many how to do approaches to portfolio compilation this book acknowledges the complexity involved in learning from practice and recording that learning in a meaningful way. The book respectfully guides the reader through essential elements to be considered if a portfolio is to be more than a depository of paper yet avoids prescription in acknowledging the individual nature of the portfolio and its necessity to reflect the nurse's own journey through their career. Professor Melanie Jasper Head of College of Human and Health Sciences Swansea University UK. The compilation of a nursing portfolio is a task which is often neglected in the busy student nurse's life between long shifts and assignments. Timmins Duffy encourage one to take on the challenge and guide one through the process systematically. Examples of structured reflections and of portfolio layouts make the realisation of one's own well presented portfolio easier than one might think. Any student or qualified nurse will thus benefit from Timmins Duffy's encouraging book. Karin Schirmaier Student University of the West of England UK. This book is intended for nurses at all stages of their careers and offers a much needed step by step guide to planning writing and maintaining a portfolio. I was particularly pleased to see a strong emphasis on reflection and education as a means of encouraging nurses to think critically and learn from their own practice. All in all this is a very well constructed book which I highly recommend. Professor Gary Rolfe Swansea University UK. This handy guide co published with the Nursing Standard is perfect for nurses who need to put together a portfolio and don't know where to start. Written as a step by step guide it answers all the common questions about how to compile and write a good nursing
