MOTIVATION - THE IMPORTANCE OF SCIENTIFIC

Scientific writing has been recognized as a key link in science and technology because of the need to share and findings. Distinguished scientists have even stated that writing of a paper may account for "half the importance" of any scientific work. Indeed, successfully publishing papers is the primary indicator of a scientist's performance. Yet students rarely receive any training in scientific writing. Their only way to learn what the main components of a paper are and how papers are organized is by intuition, which may be ineffective and/or inefficient, or by trial and error, which may waste a lot of time and hurt their confidence. Consequently, scientists at all levels in their careers often end up writing papers with poor grammar and structure and that lack clear focus. Many such papers do not get published despite their valuable contributions.

ENGLISH: ITS IMPORTANCE AND

Proficiency in English is necessary in today's global environment not only for academic purposes but also for professional success.
