Motherhood and Choice Amrita Nandy, 2017-10-02 How can women live fully If autonomy is critical for humans why do women have little or no choice vis vis motherhood Do women know they have a choice if they do How free are these choices in a context where the self is socially mired and deeply enmeshed into the familial What are implications of motherhood on how human relatedness and belonging are defined These questions underlie Amrita Nandy's remarkable research on motherhood as an institution one that conflates woman with mother and personal with political As the bedrock of human survival and an unchallenged norm of normal female lives motherhood expects and even compels women to be mothers symbolic and corporeal Even though the ideology of pronatalism and motherhood reinforce reproductive technology and vice versa the care work of mothering suffers political neglect and economic devaluation However motherhood and non motherhood is not just physiological As the pivot to a web of heteronormative institutions such as marriage and the family motherhood bears an overwhelming and decisive influence on women's lives Against the weight of traditional and contemporary histories socio political discourse and policies this study explores how women as embodiments of multiple identities could live stigma free authentic lives without having to abandon reproductive self determination Published by Zubaan

The Right to Education in India Florian Matthey-Prakash, 2019-08-22 What does it mean for education to be a fundamental right and how may children benefit from it Surprisingly even when the right to education was added to the Indian Constitution as Article 21A this question barely received any attention The book identifies justiciability or more broadly enforceability as the most important feature of Article 21A meaning that children and their parents must be provided with means to effectively claim their right from the State otherwise it would remain a right only on paper The book highlights how lack of access to the Indian judiciary means that the constitutional promise of justiciability remains unfulfilled It deals with the possible alternative means the State may provide for the poor to claim the benefits under Article 21A and identifies the grievance redress mechanism created by the Right of Children to Free and Compulsory Education Act 2009 as a potential system of enforcement Even though this system is found to be deficient the book concludes with an optimistic outlook hoping that rights advocates may in the future focus on improving such mechanisms for legal empowerment
