reading I liked the rythming of words as well as the message I think it was related to another love of mine as a child and that was music and dancing It didn t take long for me memorize the lyrics of a song as we danced along singing aloud as if we were endowed with a gift from heaven above with that special kind of love That was the ultimate fun as a young man growing up to meet the girls To write little poems to your girlfriends was what I liked most The poetry of greeting cards was my cup of tea after my education experience on our family festivities and celebrations I would add my own poems to the cards on these occasions The family and friends always seemed to like them so very much always complimenting and encouraging me to write more But I did not pursue poetry much as I continued my quest for facts in pursuit of truth When my marriage ended in divorce in the early 1980s it was music and poetry that brought joy and peace within That s when my writing of poetry increased and my perspective about other things expanded As a single man again it was very interesting living the single life Now I have been married for 18 years living the family life called the American dream with grand children and all the wrappings and trappings that go with it But I don t mind one little bit because most of us should be graceful for the material life this land has produced despite its inequities For the horizon does not look as favorable for our future generations that must cope with the mess we have left for them in the physical mental and spiritual planes of life *You Are NOT Negro, Black, Coloured, Morisco Nor an African Slave* Kudjo Adwo El,2016-03-10 Grand Sheik Kudjo Adwo El examines the history of various misnomers of Moorish Americans since their encounter with the nations of Europe and their socio political implications *Fear: An American History* Willie Turner,2022-08-30 History is the foundation of all great societies Willie authored this book to explore why throughout world and specifically American history the seventeenth eighteenth and nineteenth century writers took upon themselves to manipulate or rewrite history in their image His book is written to correct dates times and events that were changed kept hidden or forgotten Willie has uncovered some hidden history that would explain why the world has entered its end time He learned how because of fear America s foundation is built on a bed of sand not solid rocks Sand that is slowly being washed away He exposes the secrets as to how few people have caused so many to struggle for their mere existence on earth how religion became the cornerstone for slavery throughout the world This book explains how and why ignorance has caused so many divisions among the people in America and around the world how a coup d etat in America s past caused majority of the people in America to become slaves struggling to survive in the richest society on earth why slavery has always been a part of the fabric of America starting from so long ago how politics and politicians are leading great nations down a road of destruction and how greed and power has consumed so many people to worship money over God **The Idea of Decline in Western History** Arthur Herman,2010-06-15 Historian Arthur Herman traces the roots of declinism and shows how major thinkers past and present have contributed to its development as a coherent ideology of cultural pessimism From Nazism to the Sixties counterculture from Britain s Fabian socialists to America s multiculturalists and from Dracula and Freud to Robert Bly and Madonna this work examines the idea of decline in

Western history and sets out to explain how the conviction of civilization's inevitable end has become a fixed part of the modern Western imagination. Through a series of biographical portraits spanning the 19th and 20th centuries the author traces the roots of declinism and aims to show how major thinkers of the past and present including Nietzsche, DuBois, Sartre and Foucault have contributed to its development as a coherent ideology of cultural pessimism. *Life Strategy Notebook* Johnny Freemont III, 2022-05-04 Many are meandering through life searching for answers of who am I and what am I called to do. They are oblivious to the spiritual forces that oppose their destiny, better yet they are not even conscious of the calling on their life. Rev. Dr. Johnny Freemont III writes this book after teaching a Bible class series on the subject matter to help the reader to begin to put together a life strategy to develop a vision for his or her life. The reader will begin to learn differences between the transcendent life, the physical life and the ordinary life one lives. He gives key points and nuggets of wisdom to map God's game plan to live a victorious life in Christ Jesus and to discover one's true calling. He helps the reader to define life, seek purpose and discover their strengths, passion, outlook, personality and use his or her life experience to maximize their potential to walk into their divinely ordained ministries. In *Life Strategy Notebook* Johnny Freemont III instructs the readers to get to know themselves and discover their spiritual gifts to fulfill their destiny by discovering the destination they must travel to arrive at that place called There, their port of call. He provides the scriptural support to help lead those who are seeking down a plain path to self-discovery. *Black Athena Revisited* Mary R. Lefkowitz, Guy MacLean Rogers, 2014-03-24 Was Western civilization founded by ancient Egyptians and Phoenicians? Can the ancient Egyptians usefully be called black? Did the ancient Greeks borrow religion, science and philosophy from the Egyptians and Phoenicians? Have scholars ignored the Afroasiatic roots of Western civilization as a result of racism and anti-Semitism? In this collection of twenty essays leading scholars in a broad range of disciplines confront the claims made by Martin Bernal in *Black Athena: The Afroasiatic Roots of Classical Civilization*. In that work Bernal proposed a radical reinterpretation of the roots of classical civilization, contending that ancient Greek culture derived from Egypt and Phoenicia and that European scholars have been biased against the notion of Egyptian and Phoenician influence on Western civilization. The contributors to this volume argue that Bernal's claims are exaggerated and in many cases unjustified. Topics covered include race and physical anthropology, the question of an Egyptian invasion of Greece, the origins of Greek language, philosophy and science, and racism and anti-Semitism in classical scholarship. In the conclusion to the volume the editors propose an entirely new scholarly framework for understanding the relationship between the cultures of the ancient Near East and Greece and the origins of Western civilization. The contributors are John Baines, professor of Egyptology, University of Oxford; Kathryn A. Bard, assistant professor of archaeology, Boston University; C. Loring Brace, professor of anthropology and curator of biological anthropology in the Museum of Anthropology, University of Michigan; John E. Coleman, professor of classics, Cornell University; Edith Hall, lecturer in classics, University of Reading, England; Jay H.
