Sternglass,2017-09-25 In a time of declining resources in institutions of higher education we grapple with how priorities are to be set for the limited resources available Most vulnerable are those students labeled underprepared by colleges and universities Should we argue that the limited resources available ought to be used to support these students through their undergraduate years And if we decide that we want to do that what evidence of their potential for success can we provide that will justify the use of these resources Through longitudinal research that follows students who have been so labeled over all their college years we can begin to find answers to these questions Time to Know Them is the first book that follows the experiences of a group of students over their entire academic experience No previous studies have brought together the factors incorporated in this

study examining writing and learning on a true longitudinal basis studying a multicultural urban population investigating the relationship between writing and learning by examining papers written over time for regularly assigned academic courses across a range of disciplines and taking into consideration non academic factors that influence academic performance such as race gender socio economic status and ideological orientation Through interviews twice a semester over six years the collection of papers written for all courses observations of instructional settings and analysis of required institutional tests of writing the author has been able to pull together a more complete picture of writing and intellectual development over the college years than has previously been available in any study Students are seen to acquire the ability to handle more complex reasoning tasks as they find themselves in more challenging intellectual settings and where risk taking and exploration of new ideas are valued The integration of students previous life experiences into their academic studies allows them to analyze critique modify and apply their previously held world views to their new learning These changes are seen to occur over time with instructional settings and support providing key roles in writing development Personal factors in students lives present difficulties that require persistence and dedication to overcome Never before have the complexities of real individual lives as they affect academic performance been so clearly presented

Writing-Intensive Wendy Strachan,2008-04-01 In one of

the few book length studies of a major post secondary writing across the curriculum initiative from concept to implementation Writing Intensive traces the process of preparation for new writing requirements across the undergraduate curriculum at Simon Fraser University a mid sized Canadian research university As faculty members across campus were selected to pilot writing intensive courses and as administrators and committees adjusted the process toward full implementation planners grounded their pedagogy in genre theory a new approach for many non composition faculty So doing the initiative aimed to establish a coherent yet rhetorically flexible framework through which students might improve their writing in all disciplines Wendy Strachan documents this campus cultural transformation exploring successes and impasses with equal interest The study identifies factors to be considered to avoid isolating the teaching of writing in writing intensive courses to engender a university wide culture that naturalizes writing as a vital part of learning across all disciplines and to keep the teaching of writing organic and reflected upon in a scholarly manner across campus A valuable case history for scholars in writing studies WAC WID and curricular change studies

circumstance She digs deeper by calling the readers to become active participants in their own victories by finding personal silver linings as a lifeline Don't be fooled by the intensity of the topics covered because just as you think a situation can't get any worse the author will have you laughing This honest memoir was written to help others walk through their own life trials Silver Linings finding my way through life's storms is a fully revised version of my award winning Silver Linings Encounters with Angels that earned a 1st in category from the international Chanticleer book reviews This revised book is packed full with new pictures chapters and updated details and it is written to better help you connect your personal life with the author's stories *From the Cotton Patch to Ph. D.* Wendell Arnold,2012-05-09 **Reconstructing Response to Student**

Writing Dan Melzer,2023-08-07 In Reconstructing Response to Student Writing Dan Melzer makes the argument that writing instructors should shift the construct so that peer response and student self assessment are more central than teacher response Presenting the results of a national study of teacher and peer response and student self assessment at institutions of higher education across the United States Melzer analyzes teacher and peer response to over 1 000 pieces of student writing as well as 128 student portfolio reflection essays He draws on his analysis and on a comprehensive review of the literature on response to introduce a constructivist heuristic for response aimed at both composition instructors and instructors across disciplines Melzer argues that teachers and researchers should focus less on teacher response to individual pieces of student writing and more on engaging in dialogue with student self assessment and peer response focusing on growth and transfer rather than products and grades Reconstructing Response to Student Writing especially when taken together with Melzer's previous book Assignments across the Curriculum provides a comprehensive and large scale view of college writing and responding across the curriculum in the United States **Never Work Harder Than Your Students & Other Principles of Great Teaching** Robyn Renee Jackson,2009 Is great teaching a gift that only a few of us are born with or is it a skill that can be learned In Never Work Harder Than Your Students Robyn Jackson makes a radical assertion Any teacher can become a master teacher by developing a master teacher mindset The master teacher mindset can be achieved by rigorously applying seven principles to your teaching until they become your automatic response to students in the classroom The more you practice these principles the more you begin to think like a master teacher The seven principles are 1 Start where your students are 2 Know where your students are going 3 Expect to get your students to their goal 4 Support your students along the way 5 Use feedback to help you and your students get better 6 Focus on quality rather than quantity 7 Never work harder than your students Using these seven principles Jackson shows you how to become a master teacher no matter where you are in your practice Each chapter provides a detailed explanation of one of the mastery principles the steps you need to take to apply them to your own practice and suggestions for how you can begin practicing the principle in your classroom right away Jackson offers stories from her own teaching practice as well as from other teachers she has helped to show you how each principle works Teaching is a hard job but using Jackson's principles

will help you and your students reap the rich rewards of that hard work Book jacket
