Nelson, 2009-02-09 The Handbook of World Englishes is a collection of newly commissioned articles focusing on selected critical dimensions and case studies of the theoretical, ideological, applied, and pedagogical issues related to English as it is spoken around the world. Represents the cross-cultural and international contextualization of the English language. Articulates the visions of scholars from major varieties of world Englishes: African, Asian, European, and North and South American. Discusses topics including the sociolinguistic contexts of varieties of English in the inner, outer, and expanding circles of its users; the ranges of functional domains in which these varieties are used; the place of English in language policies and language planning; and debates about English as a cause of language death, murder, and suicide. **New Horizons in English 2**, **English Grammar and Composition for High Classes**, *New Horizons in Prescriptivism Research* Nuria Yáñez-Bouza, María E. Rodríguez-Gil, Javier Pérez-Guerra, 2024-04-16 This book investigates the connections between evaluative judgements on language and the larger social, cultural, and political issues that shed light on the practice of prescriptivism. The chapters cover three main areas: language which represents the traditional roots of the study of linguistic norms in authoritative historical manuals and judgemental attitudes to language usage; literary and scripted texts which illustrate the enregisterment of the values of linguistic prescriptivism as a social and cultural phenomenon; and speech communities which reflect the growth in scope of the field to consider geographical contexts beyond mainstream British and American English to include varieties of English and other languages worldwide. The book also discusses recent theoretical and methodological advances in the study of prescriptivism. **Publisher's Monthly**, 2003 **Wren & Martin Middle School English Grammar and Composition** P.C.
