the book unifies a number of topics that have not previously been fully related to one another including theatre and literature music and language creativity and aesthetics dancing and acting and visual art and music A unique volume providing a bold new approach to the integration of the arts for academics or general readers of the arts psychology cognitive neuroscience anthropology and evolutionary studies Edinburgh Companion to the Short Story in English Paul Delaney,2018-11-27 This collection explores the history and development of the anglophone short story since the beginning of the nineteenth century
