How to Write a Book Geoff Palmer, 2019-09-23 I want to write a book Where do I start Are you thinking of writing a novel or a nonfiction book but aren't sure where to begin Perhaps you've heard of the Snowflake Method the 30 Day Method the 5 Draft Method outlining plotters and pantsers but are just having trouble fitting writing into your life This is the writing guide to get you going Maybe you've already started a book once twice several times yet somehow drifted away lost focus lost momentum and ended up dumping your manuscript in the too hard basket This is the writing guide to get you back on track 12 simple steps to becoming an author Divided into three easy stages How to Write a Book has 12 simple steps that take you through the process of writing from start to finish Part 1 Getting Started explores the tricks of the mind that stand in the way of a would be writer From finding the time to dealing with distractions battling Resistance what to do when your mind's a blank and even writing with a tomato Part 2 Keeping Going Most novels are abandoned one third of the way in Find out why And find out what you can do when you hit The Wall strike writer's block or are trapped in the tyranny of constant changes Part 3 Letting Go The tricks of the mind don't stop once you type THE END This part looks at the quest for perfection and how to handle it dealing with rejections and what to do once you think you're done Bonus chapter A special bonus chapter deals with what you should write the business of writing being a guinea pig doing a Nanowrimo write a novel in a month the three Ps Practice Productivity and Professionalism and what being a successful writer really means Write the novel you've always dreamed of writing Start today Excerpt from the Introduction On 1 September 1995 Jim Grant sat down to write He'd never written a novel before and having just been made redundant from his job at Granada Television reckoned he'd have to earn himself a laptop So he went out and bought three pads of paper a pencil a pencil sharpener and an eraser investing the princely sum of 3.99 in his new vocation Then settled down to work Long hand The book he wrote called Killing Floor earned Grant a laptop all right and a great deal more It and his subsequent books have regularly topped the bestseller charts for the last twenty years But you probably don't recognise his name That's because Grant writes under the pseudonym Lee Child My aim in opening with that story wasn't to add to the mythology of Jim Grant Lee Child or to help him sell more books He seems to be doing okay without my assistance What I wanted to emphasise was the writer's basic tools pads of paper a pencil a pencil sharpener an eraser That really is all you need And it's all writers have needed for centuries You don't need a new laptop with terabytes of disk space and monitor large enough to be seen from the Moon All you need is 3.99's worth of supplies About 5 in the US If you have a typewriter great A computer's even better But neither of those things are essential All you really need is some method of recording your thoughts A pencil and paper work fine Just ask Lee Child
