Writing And Revising Portable Guide:

Writing and Revising X. J. Kennedy, 2010 **Writing and Revising, a Portable Guide + 50 Essays 2nd Edition, a Portable** Laurie G. Kirsznar, 2008 **Upsetting Composition Commonplaces** Ian Barnard, 2014-07-15 In *Upsetting Composition Commonplaces* Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather than on providing solutions in the form of teaching templates *Upsetting Composition Commonplaces* addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing [Writing about Literature with 2009 MLA Update](#) Janet E. Gardner, 2009-06-19 Click here to find out more about the 2009 MLA Updates and the 2010 APA Updates *Writing about Literature* introduces strategies for reading literature explains the writing process and common writing assignments for literature courses provides instruction in writing about fiction poetry and drama and includes coverage of writing a research paper and of literary criticism and theory This volume in Bedford St Martin's popular series of *Portable Anthologies and Guides* offers the series trademark combination of high quality and great value for teachers looking to assign supplementary instruction on reading and writing about literature to their students **A Guide to Writing in the Sciences** Andrea A. Gilpin, Patricia Patchet-Golubev, 2000-12-15 While teaching writing to undergraduate science students Gilpin and Patchet Golubev discovered that although many relatively sophisticated manuals for scientific writing exist most are aimed at mainly professionals or specialists and are of little practical use to the majority of students This introductory guide fills that large gap Direct and friendly in tone the book provides clear and concise explanations of the basic elements of scientific writing required of students The various genres are detailed in particular lab reports and research essays as well as scientific articles poster presentations proposals and even essay exams Similarities and differences among these genres are underlined in order to illustrate structural principles and to provide practical writing tips A detailed chapter covers the elements of grammar and punctuation that are fundamental to all good writing it also outlines some key points about scientific style in particular Using accessible language throughout the authors organize their material with helpful lists copious examples and boxed writing and research tips There are several useful appendices including a classification chart of organisms and an international units conversion chart an index and selected bibliography on science and technical writing

Unique in its field this guide offers a practical and valuable guide to the basic principles and conventions of science writing
