Svengalis,Rhode Island LawPress,2008 **English Text** J.R. Martin,1992-11-18 This book is a comprehensive introduction to text forming resources in English along with practical procedures for analysing English texts and relating them to their contexts of use It has been designed to complement functional grammars of English building on the generation of discourse

analysis inspired by Halliday and Hasan's *Cohesion in English*. The analyses presented were developed within three main theoretical and applied contexts: i educational linguistics especially genre based literacy programmes; ii critical linguistics as manifested in the development of social semiotics; and iii computational linguistics in dialogue with the various text generation projects based on systemic approaches to grammar and discourse. *English Text*'s major contribution is to outline one way in which a rich semantically oriented functional grammar can be systematically related to a theory of discourse semantics including deconstruction of contextual issues i.e. register, genre and ideology. The chapters have been organized with the needs of undergraduate students in theoretical linguistics and postgraduate students in applied linguistics in mind.

Persuasive Preaching R. Larry Overstreet, 2021-06-01 Michael Dudit, executive editor of *Preaching Magazine*, writes in the foreword that the reader will find in this book a valuable discussion of what persuasion really is, what the Bible has to say about it, how it is modeled in the New Testament, and what role persuasion should and should not play in our own preaching in the twenty-first century. The author has provided solid biblical content and practical guidance that will be a powerful resource for preachers and church leaders. He writes with clarity and dare I say it, persuasive power. I hope you will be as blessed by this book as I have been. Publisher.
