

PADDOCK'S TOXICOLOGY REPORT

Samples of Stephen Paddock's blood, urine and hair were used to perform the toxicology tests. At least 14 different substances were identified in the samples.

Laura M. Labay, forensic toxicologist:

"My opinions about the possibility regarding the manifestation of violent and aggressive behavior are detailed as follows:"

SUBSTANCES

SUMMARY OF FINDINGS

Benzodiazepines

FOUND:

Nordiazepam	42 ng/ml
Oxazepam	170 ng/ml
Temazepam	140 ng/ml

"Benzodiazepines are prescribed to treat a wide range of conditions including, but not limited to, anxiety, insomnia, and agitation. The finding of these substances in urine and not in blood show that Mr. Paddock had previously used or was exposed to this drug class."

Arsenic, antimony, selenium

FOUND:

Arsenic	12 mcg/L
Antimony	9.6 mcg/L
Selenium	12 mcg/L

"Even at elevated concentrations are not known to be associated with the production of violent and aggressive behavior."

Lead

FOUND:

Lead	73 mcg/dL
------	-----------

"However, for lead at the reported concentration of 73 mcg/mL in adults there is insufficient evidence that this concentration will cause violent and aggressive behavior."

The results listed are from blood samples.

Toxicology Report From Autopsy

L. Maximilian Buja, Jagdish Butany

Toxicology Report From Autopsy:

Guidelines for Reports by Autopsy Pathologists Vernard Irvine Adams, 2008-12-24 Guidelines for Reports by Autopsy Pathologists is intended to help the autopsy pathologist produce reports that communicate well Having evolved from a collection of faculty critiques of the autopsy reports summary and opinion reports scene reports and death certificates produced by residents in anatomic pathology and flows in forensic pathology the book emphasizes topics that have been troublesome for trainees For clinicians the medical record describes their work product For autopsy pathologists the written report is the work product and demands an accordingly higher standard of composition Most reports produced by pathologists can be divided into objective and subjective elements or in other words findings and opinions The pathologist must have a clear understanding of the linkage between the two When composing a report the autopsy pathologist should serve the goal of communicating to the parties who will read the report namely the case pathologist him or herself at a later date attorneys the family of the decedent and other physicians I believe that careless and imprecise thinking leads to sloppy language and that sloppy language leads to careless and imprecise thinking In my experience pathologists who learn how to clearly express and organize their findings and opinions in a written format make more detailed and focused observations at the autopsy table

Autopsy Manual, 1981 Forensic Toxicology Robert H. Powers, Dorothy E. Dean, 2015-12-01 Designed for graduate and advanced undergraduate courses this book goes beyond the simple analysis of naming a drug or toxin taking a mechanistic approach to their effects on the body It provides an understanding of the mechanisms of action of drugs and toxins as well as their physiologic and pathologic consequences on the affected organ system Case histories photographs of gross pathology and photomicrographs further illustrate the processes and effects of toxic substances on the body

Postmortem Toxicology of Abused Drugs MD, FFFLM, Steven B. Karch, 2007-10-09 Postmortem Toxicology of Abused Drugs considers the role of toxicology in death investigation and gives practical insights on conducting toxicology tests and completing the toxicology report It explains chain of custody specimen collection and security sampling of blood urine bile and vitreous humor and selection of post mortem specimens The book analyzes various testing procedures discusses methods and strategies for analysis covers quality assurance protocols and controls and instructs in the proper interpretation of postmortem drug tests Heavily referenced and containing several tables figures and useful appendices this book is a handy reference for forensic scientists and medical examiners involved with death investigations **Firefighter Autopsy Protocol**, 2008

Death Investigation Randy Hanzlick M.D., 2017-08-21 Death Investigation Systems and Procedures is the first book dedicated to the topic of death investigation from a legal standpoint as well as the administrative and operational procedures that pertain to the medical examiner and the coroner system in the United States Unique in its perspective this book is the only one not concerned with instruction **Death Scene Investigation Procedural Guide** Michael S. Maloney, 2012-02-15 Death Scene Investigation Procedural Guide is the answer to a long recognized dilemma how to have every death

investigated by an experienced death investigator Tom Bevel author of Practical Crime Scene Analysis and Reconstruction and Bloodstain Pattern Analysis with an Introduction to Crime Scene Reconstruction Third Edition Those tasked with investigating death scenes come from a variety of backgrounds and varying levels of experience Death Scene Investigation Procedural Guide gives the less experienced investigator the procedures for almost any death scene imaginable while providing the seasoned investigator a ready reference for deaths occurring even under the most unusual of circumstances It details the precise steps that need to be taken when processing and analyzing a death scene to ensure vital evidence is not lost and red flags are not missed Using a bulleted format for quick and easy access the book provides hands on concise instruction in a style friendly to a range of professionals Topics discussed in this practical manual include Initial response and scene evaluation This section includes a death investigation decision tree to lead investigators to a preliminary cause of death The section is broken down into natural accidental suicidal and homicidal deaths It also explores the role of the medical examiner and autopsy protocol Recovery of human remains from open field aquatic and buried sites This section also discusses estimating the time of death Wound dynamics and mechanisms of injury Manners of death include asphyxiation sharp force blunt force and chopping injuries handgun rifle and shotgun wounds and explosive thermal and electrical injuries Special death scene investigations Discussions include child and infant death sex related death and death scenes with multiple victims Death scene management This section covers documentation sketching photography and videography special observations and search procedures Death scene evidence processing Topics include bloodstain patterns shooting scenes and entomological biological trace friction ridge and impression evidence An appendix contains precautions for handling bloodborne pathogens and 15 innovative worksheets for field use are available for download Death scene responders who master the techniques in this volume will expedite solving the circumstances of the death and the closing of the case Michael S Maloney was interviewed in Volume 13 of Anil Aggrawal s Internet Journal of Forensic Medicine and Toxicology *The Education of a Coroner* John Bateson, 2017-08-15 In the vein of Dr Judy Melinek s Working Stiff an account of the hair raising and heartbreaking cases handled by the coroner of Marin County California throughout his four decades on the job from high profile deaths to serial killers to Golden Gate Bridge suicides Marin County California is a study in contradictions Its natural beauty attracts thousands of visitors every year yet the county also is home to San Quentin Prison one of the oldest and largest penitentiaries in the country Marin ranks in the top one percent of counties nationwide in terms of affluence and overall health yet it is far above the norm in drug overdoses and alcoholism and comprises a large percentage of suicides from the Golden Gate Bridge Ken Holmes worked in the Marin County Coroner s Office for thirty six years starting as a death investigator and ending as the three term elected coroner As he grew into the job which is different from what is depicted on television Holmes learned a variety of skills from finding hidden clues at death scenes interviewing witnesses effectively managing bystanders and reporters preparing testimony for court to notifying families of a death with

sensitivity and compassion He also learned about different kinds of firearms all types of drugs prescription and illegal and about certain unexpected and potentially fatal phenomena such as autoeroticism Complete with poignant anecdotes The Education of a Coroner provides a firsthand and fascinating glimpse into the daily life of a public servant whose work is dark and mysterious yet necessary for society to function

Principles and Practice of Forensic Psychiatry Richard Rosner, Charles Scott, 2017-02-03 The third edition of this award winning textbook has been revised and thoroughly updated Building on the success of the previous editions it continues to address the history and practice of forensic psychiatry legal regulation of the practice of psychiatry forensic evaluation and treatment psychiatry in relation to civil law criminal law and family law as well as correctional forensic psychiatry New chapters address changes in the assessment and treatment of aggression and violence as well as psychological and neuroimaging assessments Patterson v. Nichols, 490 Mich 988 (2012), 2012 142441

Forensic Science Stuart H. James, Jon J. Nordby, Suzanne Bell, Jon J. Nordby, Ph.D., 2005-02-10 Written by highly respected forensic scientists and legal practitioners Forensic Science An Introduction to Scientific and Investigative Techniques Second Edition covers the latest theories and practices in areas such as DNA testing toxicology chemistry of explosives and arson and vehicle accident reconstruction This second edition offers a cutting edge presentation of criminalistics and related laboratory subjects including many exciting new features What's New in the Second Edition New chapter on forensic entomology New chapter on forensic nursing Simplified DNA chapter More coverage of the chemistry of explosives and ignitable liquids Additional information on crime reconstruction Revised to include more investigation in computer forensics Complete revisions of engineering chapters New appendices showing basic principles of physics math and chemistry in forensic science More questions and answers in the Instructor's Guide Updated references and cases throughout An extensive glossary of terms

A Line 2 Die 4 Jimmy James, 2009-09 James would never graduate high school but he would graduate with excellence from the drug game which would eventually lead him to being arrested and charged with homicide explosive The first case in the State of Wisconsin where one line of cocaine is classified as a dangerous weapon A LINE 2 DIE 4 James a mid age drug dealer provides a firsthand account of his actions and thoughts his arrest incarceration interactions with police family friends and court proceedings Mr Sullivan who is running for the District Attorney position in Huntsville WI and Ms Smith James's defense attorney of thirty years go toe to toe fighting over his freedom in the courtroom James is learning hard times and hard lessons on how the justice system actually works as Lt O'Brien of the Huntsville police department Tracks down and question suspect after suspect trying to unearth any dirt he can on the night that Lisa Amour died Swickard v. Wayne County Medical Examiner, 438 MICH 536 (1991), 1991 89602

Legal Drugs, Illegal Purposes United States. Congress. Senate. Committee on Governmental Affairs, 2004 **Practical Methods for Legal**

Investigations CLI, Dean A. Beers, 2011-02-09 Legal investigators are responsible for providing factual evidence as the fact finders they are the foundation for the attorneys they work with daily The attorney is responsible for forming and

implementing the legal strategy and presenting it to the judge or jury The legal investigator provides checks and balances to ensure that no evidence is lost or tampered with

Injury Research Guohua Li,Susan P. Baker,2012-01-06 *Injury* is recognized as a major public health issue worldwide In most countries injury is the leading cause of death and disability for children and young adults age 1 to 39 years Each year in the United States injury claims about 170 000 lives and results in over 30 million emergency room visits and 2 5 million hospitalizations Injury is medically defined as organ tissue damages inflicted upon oneself or by an external agent either accidentally or deliberately Injury encompasses the undesirable consequences of a wide array of events such as motor vehicle crashes poisoning burns falls and drowning medical error adverse effects of drugs suicide and homicide The past two

decades have witnessed a remarkable growth in injury research both in scope and in depth To address the tremendous health burden of injury morbidity and mortality at the global level the World Health Organization in 2000 created the Department of Injury and Violence Prevention which has produced several influential reports on violence traffic injury and childhood injury The biennial World Conference on Injury Control and Safety Promotion attracts a large international audience and has been successfully convened nine times in different countries In the United States the National Center for Injury Prevention and Control became an independent program of the federal Centers for Disease Prevention and Control in 1997 Since then each state health department has created an office in charge of injury prevention activities and over a dozen universities have established injury control research centers This volume will fill an important gap in the scientific literature by providing a comprehensive and up to date reference resource to researchers practitioners and students working on different aspects of the injury problem and in different practice settings and academic fields People of the State of Illinois V. Leach ,2010
