Studies of White Whales (Delphinapterus Leucas) and Narwhals (Monodon Monoceros) in Greenland and Adjacent Waters, 1994 **Studies in Classic American Literature** D.H. Lawrence, 2020-10-01 The author of such classics as *Sons and Lovers* and *The Rainbow* critically examines classic American literature in this collection of essays This anthology provides a deep look at D H Lawrence s thoughts on American literature including notable essays on Benjamin Franklin Edgar Allan Poe Nathaniel Hawthorne Herman Melville and Walt Whitman Originally published in 1923 this volume has corrected and uncensored the text and presents earlier versions of many of the essays *Lost in the Customhouse* Jerome Loving, 2005-08 In this spirited challenge to dominant American literary criticism Jerome Loving extends the traditional period of American literary rebirth to the end of the nineteenth century and argues for the intrinsic value of literature in the face of new historicist and deconstructionist readings Bucking the trend for prophetic and revisionist interpretations Loving discusses the major work of the last century s canonized writers as restorative adventures with the self and society From Washington Irving to Theodore Dreiser Loving finds the American literary tradition filled with narrators who keep waking up to the central scene of the author s real or imagined life They travel through a customhouse of the imagination in which the Old World experience of the present is taxed by the New World of the utopian past where life is always cyclical instead of linear and ameliorative Loving argues that the central literary experience in nineteenth century America is the puritanical desire for the time before the loss of innocence that endless chance of coming into experience anew *Lost in the Customhouse* begins with a discussion of Irving Hawthorne Melville Poe Thoreau and Emerson and finds these seminal Renaissance writers waking up primarily to psychological facts which blossomed into the fiction of a self begotten out of the nothingness of experience In part 2 Loving shifts his attention to the urbanization of the American imagination and discusses Whitman Twain Dickinson James Chopin and Dreiser Here the dream driven impulse is more clearly influenced by social history abolition women s suffrage industrialization and the growth of professionalism Loving focuses upon the role of the woman who finds herself on the same frontier as her male precursors with nothing but a carpetbag that is to say the American ego Throughout the study Loving challenges the notion that American literature is preponderately cultural work In the epilogue he packs up his own carpetbag and passes through the European customhouse to find that American writers are more readily perceived as literary geniuses outside of their culture than within it *The Creators* Daniel J. Boorstin, 2012-04-11 By piecing the lives of selected individuals into a grand mosaic Pulitzer Prize winning historian Daniel J Boorstin explores the development of artistic innovation over 3 000 years A hugely ambitious chronicle of the arts that Boorstin delivers with the scope that made his *Discoverers* a national bestseller Even as he tells the stories of such individual creators as Homer Joyce Giotto Picasso Handel Wagner and Virginia Woolf Boorstin assembles them into a grand mosaic of aesthetic and intellectual invention In the process he tells us not only how great art and great architecture and philosophy is created but where it

comes from and how it has shaped and mirrored societies from Vedic India to the twentieth century United States
