Lukas Stark has been hunting the Tableau Killer for eighteen months but is always two steps behind in a maze of dead ends. He has no understanding of why the killer stages the scenes so meticulously or chooses entire families. Burning out, Stark is forced to take on a new partner, Gilles Garnier. Garnier, an odd loner with a vague past, claims he's a remote viewer who sees people, places, and events far away, remote as if they're right in front of him. Stark knows this sort of con wannabe is desperate to worm their way onto a sensational case. Stark dismisses his new partner as a fraud until Garnier precisely describes a new Tableau Killer crime scene from hundreds of miles away. As Stark and Garnier track the Tableau Killer across the country, they start to believe they finally have the advantage. But Garnier's ability to remote view fails him, and he leaves him ill and weak. Then Stark realizes how the killer has stayed ahead of them all this time. The reason is more terrifying than either man can fathom. They face a killer who may be unstoppable and stand at the abyss of a conspiracy so ominous it shakes their reality to the core.

of the Chinese automakers is a close reflection of China's powerful manufacturing economy and Geely Auto is one such best example. This book closely examines the rise of Geely as a privately owned automaker in China. From its humble beginning as a refrigerator component maker and motorcycle manufacturer in the late twentieth century, Geely has grown to become not only a top-selling national brand in China, the largest auto market in the world, but also a significant player in the global automotive industry. The book studies Geely's successful acquisition of Volvo within a long-term framework of asset seeking, foreign direct investment, and then further investigates its recent strategic initiatives with Daimler, London Taxi, PROTON, and Lotus. The book reveals how the little-known carmaker is worth close examination via its product development, organizational dynamics, corporate culture, brand development, talent, and cross-cultural management strategies, as well as the entrepreneurship of its visionary founder Shufu Li. From catching up in technology to a leader in product service and business model innovations, Geely has driven out as a new Chinese automaker on the world stage. Facing challenges in clean energy and Internet of Things, artificial intelligence, new user's experience, towards smart and mobility solution, Geely will continue to play an increasingly important role in the globalization age of the twenty-first century. **Car** DK, 2022-05-31
