Where She Went:

Where She Went Gayle Forman, 2012-04-17 Adam now a rising rock star and Mia a successful cellist reunite in New York and reconnect after the horrific events that tore them apart when Mia almost died in a car accident three years earlier

Summary and Analysis Where She Went (If I Stay, Book 2) Booksense, 2014-08-23 Notice This is not the actual book Where She Went by Gayle Forman Do not buy this Summary Analysis if you are looking for a full copy This is a Summary Analysis Where She Went by Gayle Forman It had been three years since Mia Hall dumped her high school sweetheart Adam Wilde and he still had no idea why Mia was the lone survivor in a car crash that killed both of her parents and her younger brother She had to get cosmetic surgery and leg surgery Although she survived as soon as she was conscious she made the decision to leave Oregon She was tired of the sympathetic looks after five months of getting an overload of it while she healed from surgery Her luck at being accepted to Juilliard came just in time Where She Went is a sequel to Gayle Forman's If I Stay and though can be read independently the problem is it is so focused on Adam and Mia's troubled romance that character development is lacking for almost all of the characters This might make the If I Stay a worthy read After a troubling interview with a reporter who looked into Adam's past the rock star was forced to make some tough decisions Should he finally deal with his relationship issues with Mia stick to groupies or cement his newer relationship with actress Bryn This Analysis helps to decipher every aspect increasing your understanding of the book more than ever Before leaving town one night for a huge concert he made the impulsive decision to see Mia perform live Three years later he finally dealt with the emotions he'd had bottled up in his music and his dating life Temperamental and confused he knew his decisions would affect the state of the band his celebrity life and his music But is his happiness more important than his career This Analysis of Where She Went fills the gap making you understand more while enhancing your reading experience *If I Stay/Where She Went Slipcase* Gayle Forman, 2014-10-23 A slipcase containing the international bestsellers If I Stay and its sequel Where She Went IF I STAY Life can change in an instant A cold February morning A snowy road And suddenly all of Mia's choices are gone Except one WHERE SHE WENT If you had a second chance at first love would you take it It's been three years since Mia walked out of Adam's life And three years he's spent wondering why When their paths cross again in New York Adam and Mia are brought back together for one life-changing night Haunting heartrending and ultimately life-affirming If I Stay and Where She Went will make you appreciate all that you have all that you've lost and all that might be Includes interviews with the stars of the film Chloe Moretz and Jamie Blackley [Annual Report](#) United States.
