Coon Trap STEM Challenge

One day you've just walked outside to take out the garbage and discovered a huge mess. A pretty raccoon has gotten into your garbage can again, and you weren't enough. You decide to take matters into your own hands by researching raccoons and designing a device to trap the raccoon and eat it free in the woods.

Your Task

- Identify the problem (what problem are you trying to solve?)
- Research (what do you need to learn about raccoons to solve the problem? what do you need to research about coon traps to help you solve the problem?)
- Design and build (what design constraints might you have?)
- Test (what includes tests?)

Newspaper Article

Billy and his dogs just won the gold cup at the Championship Hunt. You are a reporter whose job is to write an article highlighting his accomplishments. Use the following guide to help you plan your article.

Opening sentence: How are you going to hook your reader right away?	
List all the people who were involved in the event (and what their role was).	
Describe the event to readers who don't know or weren't in attendance. What did competitors do?	
When did the event take place?	
Where did the event take place?	
Why won the event?
