Dear Beneficiary

WISHING YOU A HAPPY XMAS IN ADVANCE.

This is to officially bring to your notice that the New government of UK London have decided to compensate all the scam victims with 3 millions british pound each (THREE MILLIONS BRITISH POUNDS ONLY) You are listed and approved for this payment as one of the scammed victims and to be paid this amount, get back to me as soon as possible for the immediate payments of your 3 MILLION BRITISH POUNDS compensations funds.

On these faithful recommendations, we want you to know that during the last U.N meetings held IN AFRICA, it was alarmed so much by the world in the meetings on the loss of funds by various individuals to the scams artists operating in syndicates all over the world today. In order to compensate scams victims, the Africans Body in conjunction with the U.N Government is now paying a total 150 victims of this operator 3 millions british pounds each in accordance with the U.N.recommendations.

Due to the corrupt and inefficient Banking Systems, your payments are be supervised by the United Nations Officials and the CORIS BANK and Finance International Bank as the corresponding paying office, According to the number of applicants at hand, 114 Beneficiaries have already been paid, half of the victims are from the United States, and India. We still have more 36 victims left to be paid ther (THREE MILLIONS BRITISH POUNDS) compensations funds.

Task Intelligence for Search and Recommendation Chirag Shah, Ryen W. White, 2022-06-01 While great strides have been made in the field of search and recommendation there are still challenges and opportunities to address information access issues that involve solving tasks and accomplishing goals for a wide variety of users Specifically we lack intelligent systems that can detect not only the request an individual is making what but also understand and utilize the intention why and strategies how while providing information and enabling task completion Many scholars in the fields of information retrieval recommender systems productivity especially in task management and time management and artificial intelligence have recognized the importance of extracting and understanding people s tasks and the intentions behind performing those tasks in order to serve them better However we are still struggling to support them in task completion e g in search and assistance and it has been challenging to move beyond single query or single turn interactions The proliferation of intelligent agents has unlocked new modalities for interacting with information but these agents will need to be able to work understanding current and future contexts and assist users at task level This book will focus on task intelligence in the context of search and recommendation Chapter 1 introduces readers to the issues of detecting understanding and using task and task related information in an information episode with or without active searching This is followed by presenting several prominent ideas and frameworks about how tasks are conceptualized and represented in Chapter 2 In Chapter 3 the narrative moves to showing how task type relates to user behaviors and search intentions A task can be explicitly expressed in some cases such as in a to do application but often it is unexpressed Chapter 4 covers these two scenarios with several related works and case studies Chapter 5 shows how task knowledge and task models can contribute to addressing emerging retrieval and recommendation problems Chapter 6 covers evaluation methodologies and metrics for task based systems with relevant case studies to demonstrate their uses Finally the book concludes in Chapter 7 with ideas for future directions in this important research area Cybercrime, Digital Forensic Readiness, and Financial Crime Investigation in Nigeria

Robinson Tombari Sibe, Christian Kaunert, 2024-03-26 Nigeria has become one of the hotbeds of cybercrime since the liberalization of the telecommunication industry began in 1996 The scale and magnitude have been quite disturbing not just for Nigeria but also for the international community given the limitless boundaries of cybercrime Like any other type of fraud Internet fraud is primarily driven by financial gains This book investigates the extent of the lack of digital forensic resources in Nigeria s financial crime agencies It is vital to have a proper resource inventory and capabilities to successfully confront the growing threat of financial crimes While a few studies have suggested the lack of forensic capabilities in Nigerian cybercrime investigative agencies and the justice system none have examined this in great detail particularly in relation to specific skills gaps and resources needed in Nigeria s financial crime agencies This book contributes to the growing body of knowledge and clarifies the scope of the lack of digital forensic resources Understanding the extent of the deficiency and its

impact on caseloads could be crucial for developing a roadmap toward building forensic readiness and capability maturity for the agencies This book presents the deficiencies in forensic readiness and recommends measures to fill this gap This book also examines the specifics of the cybercrime caseloads and conviction records in Nigeria identifying trends and patterns The book explores other cybercrime complexities in Nigeria such as common cybercrime taxonomies prosecution and conviction dynamics juxtaposing it with select case studies in other jurisdictions Drawing on extensive research the book offers crucial insights for policymakers researchers and the public interested in new trends in cybercrime digital forensic readiness Nigerian financial crime agencies and cybercrime investigations *Understanding Social Engineering Based Scams* Markus Jakobsson,2016-09-13 This book describes trends in email scams and offers tools and techniques to identify such trends It also describes automated countermeasures based on an understanding of the type of persuasive methods used by scammers It reviews both consumer facing scams and enterprise scams describing in depth case studies relating to Craigslist scams and Business Email Compromise Scams This book provides a good starting point for practitioners decision makers and researchers in that it includes alternatives and complementary tools to the currently deployed email security tools with a focus on understanding the metrics of scams Both professionals working in security and advanced level students interested in privacy or applications of computer science will find this book a useful reference **The Palgrave Handbook of Deceptive Communication** Tony Docan-Morgan,2019-04-29 Deception and truth telling weave through the fabric of nearly all human interactions and every communication context The Palgrave Handbook of Deceptive Communication unravels the topic of lying and deception in human communication offering an interdisciplinary and comprehensive examination of the field presenting original research and offering direction for future investigation and application Highly prominent and emerging deception scholars from around the world investigate the myriad forms of deceptive behavior cross cultural perspectives on deceit moral dimensions of deceptive communication theoretical approaches to the study of deception and strategies for detecting and deterring deceit Truth telling lies and the many grey areas in between are explored in the contexts of identity formation interpersonal relationships groups and organizations social and mass media marketing advertising law enforcement interrogations court politics and propaganda This handbook is designed for advanced undergraduate and graduate students academics researchers practitioners and anyone interested in the pervasive nature of truth deception and ethics in the modern world *Frameworks for ICT Policy: Government, Social and Legal Issues* Adomi, Esharenana E.,2010-07-31 Frameworks for ICT Policy Government Social and Legal Issues is a reference on ICT policy framework and a guide to those who are involved in ICT policy formulation implementation adoption monitoring evaluation and application This comprehensive publication provides background information for scholars and researchers who are interested in carrying out research on ICT policies and promotes the understanding of policies guiding technology Handbook on Crime and Technology Don Hummer,James M.
