

EXAMPLE ON HOW TO ANSWER CASE STUDY?

Sample case :

Farid was a director of Lotos Mall. He instructed his manager to sell some items at the higher price than they advertised. Thus, the company had been sued for misdescription offences. Farid has been blamed for the offence. However, Farid claimed that the company that was to be blame for the offence, not him. Was the offence committed by Lotos Mall or by Farid?

1. Issue :

- a. Whether the company can be blamed solely for the offences or not
- b. Whether farid can be held responsible for that offences of misdescription of price or the Lotos Mall?

2. Formulation : In Farid situation, Farid should be held responsible for the offence. It is because he had given instruction his manager to sell some of the items at a higher price. When a company commit wrong action, the company cannot think or act by himself to commit such wrong action. Thus we have to look behind the veil of the company to determine the person who shall be responsible for the wrong doing.

3. Legal Principle and supporting case :

Section 20 CA provides that a company incorporated under this Act is a body corporate and shall :

- (a) have legal personality separate from that of its members; and
- (b) continue in existence until it is removed from the register.

Further, **Section 21** states that the companies will have unlimited capacity and will be capable of exercising all the functions of a body corporate and have the full capacity to carry on or undertake any business or activity including:

- (a) to sue and be sued;
- (b) to acquire, own, hold, develop or dispose of any property;
- (c) to do any act which it may do or to enter into transactions.

A company shall have the full rights, powers and privileges for the above purposes.

Supporting case :

In the case of **SALOMON v SALOMON & CO. LTD**

Salomon, a sole trader as a leather and boot merchant sold his business to Salomon & Co. Ltd, a company he formed with his wife and children. Payment for the purchase was partially effected debentures issued by the company to Salomon. The company later went into liquidation and its assets were not enough to satisfy its creditors. Mr. Salomon however claim priority over the other debtors as he was a secured creditor.

Held: Mr. Salomon the creditor is a person separate and distinct from Salomon & Co. Ltd even though Mr. Salomon was the majority shareholder of the company.

Heavy Metals: A Problem Solved? E van der Voet, Jeroen B. Guinée, Helias A. Udo de Haes, 2013-04-17 Most publications on heavy metals and the environment have focused on environmental pathways and risks. The present book establishes a link between the environmental risks of heavy metals and the societal causes of the risks. Economic models, substance flow models, and environmental fate and risk assessment models have been integrated into a single analytical framework that has been used to trace and understand the routes by which four heavy metals enter the economy through to their final destination in the environment. The long-term impacts of the current metals management regime in the Netherlands have been used as a case study by which to assess the effectiveness of certain policy measures. Readership: Environmental scientists, especially those practising in the areas of ecological economics, industrial ecology, materials flow accounting, and integrated environmental assessment. Environmental policy makers will also find the book an invaluable aid in their deliberations.

Private International Law Symeon C. Symeonides, 2021-11-08 This book compares the two golden ages of private international law (PIL): the first is the era of Story and Savigny in the nineteenth century, while the second comprises the last fifty years. The period between 1970 and 2020 has been one of rapid changes and dense legislative responses exemplified by the adoption of over one hundred national PIL codifications and almost as many international or regional conventions and regulations. These instruments provide a rich source for this book's incisive and instructive comparisons and a fertile ground for a reliable assessment of the progress of PIL as a discipline. This book skillfully uncovers and meticulously documents the gradual and largely unnoticed transition of PIL from the idealism of the nineteenth century to the pragmatic eclecticism and pluralism of the twenty-first century.
