What Sponsors Want: An Inspirational Guide For Event Marketers Mark Harrison, 2020-08-27 This book offers a practical but conceptually grounded view of the future of sponsorship. It is based on the reality that the world of sponsorship marketing is far too focused on impressions, logos, and money. Can't you buy experiences, experiences which are miraculously secured with money? The author asks questions such as: Do any corporate sponsors really believe that more logos are what their consumers want, and do organizations selling sponsorship believe they have nothing more valuable to sell than digital and physical signage? In a culmination of real life experiences, industry learnings, and third party professional research, What Sponsors Want provides expert supported arguments to show that the traditional bronze, silver, and gold packages of sponsorship belong to a model of the past. In outlining the conceptual model for successful sponsorship, this book provides five key principles of what sponsors want for you to take on your next sponsorship challenge. Hearings United States. Day One Abigail Dean, 2025-03-25 A gripping examination of a community devastated by a school shooting and the truthers who deny it ever happened. Within that story is a girl who's hiding what she knows about what happened that day. A chilling thought provoking read. Brilliant. Shari Lapena, New York Times bestselling author of Everyone Here Is Lying and The Couple Next Door. A village hall, a primary school, play a beautiful Lake District town in England. Into this idyllic scene steps a lone gunman whose actions set off a chain of events that will have devastating consequences for the close knit community of Stoneshire. In the weeks following the cataclysm, conspiracy theorists start questioning what happened. Two young people find themselves at the epicenter of the uproar: Marty, the town's golden girl and daughter of a teacher killed that day, and Trent, whose memories of his brief time trying to fit into Stoneshire fuel his attachment to the conspiracies. But what really happened at the Day One assembly? What secrets is Marty keeping, and what blind spots does Trent miss? In this world where news travels fast and videos and gossip travel faster, how does a community move forward together? Opening with a gripping moment of terror and then jumping forward in time to

Science and the Secrets of Nature William Eamon,1996-06-02 In closely examining this rich but little known source of literature Eamon reveals that printing technology and popular culture had as great if not stronger an impact on early modern science as did the traditional academic disciplines Medieval interest in the secrets of nature was spurred in part by ancient works such as Pliny s Natural History As medieval experimenters adapted ancient knowledge to their changing needs they created their own books of secrets which expressed the uncritical empiricist approach of popular culture rather than the subtle argumentation of scholastic science The crude experimental methodology advanced by the professors of secrets became for the new philosophers of the seventeenth century a potent ideological weapon in the challenge of natural philosophy

Youth Sport, Migration and Culture Max Mauro,2019-01-15 How do migrant youth negotiate their role in society through sport and leisure practices How can political theory and qualitative critical research work together to make sense of these processes These are among the questions that led to a long term investigation of young males sport practices in Ireland possibly the most fertile contemporary setting for the analysis of questions of sport and identity Youth Sport Migration and Culture emphasises the epistemological and ethical urgency of doing research with rather than on young people Engaging with the social changes in Irish society through the eyes of children of immigrants growing up in Ireland the book looks closely at young people s leisure practices in multi ethnic contexts and at issues of inclusion in relation to public discourses around national identity and immigration Offering compelling analysis of how ideas of race and racism are elaborated through sport this book is fascinating reading for anybody with an interest in the sociology of sport sport development or youth culture

Shadow Work Craig Lambert,2015-05-01 With the exception of sleep humans spend more of their lifetimes on work than any other activity It is central to our economy society and the family It underpins our finances and our sense of meaning in life Given the overriding importance of work we need to recognize a profound transformation in the nature of work that is significantly altering lives the incoming tidal wave of shadow work Shadow work includes all the unpaid tasks we do on behalf of businesses and organizations It has slipped into our routines stealthily most of us do not realize how much of it we are already doing even as we pump our own gas scan and bag our own groceries execute our own stock trades and build our own unassembled furniture But its presence is unmistakable and its effects far reaching Fueled by the twin forces of technology

and skyrocketing personnel costs shadow work has taken a foothold in our society Lambert terms its prevalence as middle class serfdom and examines its sources in the invasion of robotics the democratization of expertise and new demands on individuals at all levels of society The end result A more personalized form of consumption a great social leveling pedigrees don't help with shadow work and the weakening of communities as robotics reduce daily human interaction Shadow Work offers a field guide to this new phenomenon It shines a light on these trends now so prevalent in our daily lives and more importantly offers valuable insight into how to counter their effects It will be essential reading to anyone seeking to understand how their day got so full and how to deal with the ubiquitous shadow work that surrounds them
