also points readers beyond media as the primary or only context for understanding the relationship between communication and sport. Thus in addition to studies of media effects, mediatization, media framing, and more, readers will also engage with studies in interpersonal, intercultural, organizational, and rhetorical communication. Second, the handbook presents an array of methods, theories, and topics in the effort to chart a comprehensive landscape of communication and sport scholarship. Thus readers will benefit from empirical, interpretive, and critical work, and they will also see studies drawing on varied texts and sites of inquiry. Third, the handbook of Communication and Sport includes a broad range of scholars from around the world. It is therefore neither European nor North American in its primary focus. In addition, the book includes contributors from commonly underrepresented regions in Asia, Africa, and South America. Fourth, the handbook aims to account for both historical trajectories and contemporary areas of interest. In this way, it covers the central topics, debates, and perspectives from the past and also suggests continued and emerging pathways for the future. Collectively, the handbook of Communication and Sport aspires to provide scholars and students in communication and media studies with the most comprehensive assessment of the field available.
