Spring Break , *Catalog of Copyright Entries* Library of Congress. Copyright Office,1965 **Who We Are Now** Michelle Fishburne,2023-01-19 Michelle Fishburne did the unthinkable during the early days of the COVID 19 pandemic she motor homed 12 000 miles all over the United States and sat down with hundreds of people face to face People shared what their lives were like what made them struggle and what surprised them The personal histories in this book show a diversity of American lives from the young college student who finds unexpected fame on TikTok to a special education teacher sharing the challenges of remote learning Everyone s story is different Some like Fishburne lost their jobs Others lost family friends and even their own health and well being And yet among the difficulties many found something that had eluded them before the pandemic These testimonies offer a glimpse into what people across America lost and found during the pandemic s critical first year Fishburne lets us hear people s stories as if we were there in real time at the beginning of COVID 19 when employment was uncertain schools were online and American life more unpredictable than ever before **Going the Distance** Lora Bartlett,Alisun Thompson,Judith Warren Little,Riley Collins,2024-11-06 An unflinching yet ultimately hopeful appraisal of the workplace factors that determine career risk and resilience among K 12 teachers informed by the lessons of the COVID 19 crisis **Life (Or Something Like It) at Mallard High** Greg Martini,2012-01-17 I dont yell at people I just shatter them emotionally and make them cry Meet Tony Calamari Freshman year at Mallard High does not begin well For one thing too many adults are telling him what to do and there are too many annoying kids he has to spend four more years with Like the last nine years werent bad enough yes hes counting kindergarten If only he could ignore as many people as possible but no one will let him Which is just typical Then one day he finds himself assigned to a classroom where maybe just maybe he might begin to like high school in spite of himself **Blue Revolution** Cynthia Barnett,2012-09-04 Americans see water as abundant and cheap we turn on the faucet and out it gushes for less than a penny a gallon We use more water than any other culture in the world much to quench what s now our largest crop the lawn Yet most Americans cannot name the river or aquifer that flows to our taps irrigates our food and produces our electricity And most don t realize these freshwater sources are in deep trouble Blue Revolution exposes the truth about the water crisis driven not as much by lawn sprinklers as by a tradition that has encouraged everyone from homeowners to farmers to utilities to tap more and more But the book also offers much reason for hope Award winning journalist Cynthia Barnett argues that the best solution is also the simplest and least expensive a water ethic for America Just as the green movement helped build awareness about energy and sustainability so a blue movement will reconnect Americans to their water helping us value and conserve our most life giving resource Avoiding past mistakes living within our water means and turning to local water as we do local foods are all part of this new blue revolution Reporting from across the country and around the globe Barnett shows how people businesses and governments have come together to dramatically reduce water use and reverse the water crisis Entire metro areas such as

San Antonio Texas have halved per capita water use Singapore s closed water loop recycles every drop New technologies can slash agricultural irrigation in half businesses can save a lot of water and a lot of money with designs as simple as recycling air conditioning condensate The first book to call for a national water ethic Blue Revolution is also a powerful meditation on water and community in America *Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... Unfinished Learning Kristen J. Amundson,2022-11-21 COVID related school closures affected all students But for students who needed in person schooling most students with disabilities English learners and students living in poverty the impact was disproportionate and devastating One research calls it the largest increase in educational inequity in a generation *Unfinished Learning* follows families as they navigate the challenges of virtual learning from figuring out how to log on to a sometimes unstable school platform to ensuring that their child s special education needs were addressed It looks at what data is now showing about which students are and which students are not recovering from learning lost during the pandemic The book also traces the parent activism that arose as a result of school closures It explores two elections that followed close on the heels of school reopenings the 2021 election for governor in Virginia and the 2022 recall of school board members in San Francisco Many of the conclusions drawn by pundits about both those elections do not fit with either the polling or with parent interviews Finally the book offers some suggestions on how schools families and communities can prepare for the inevitable next school closures *Supermoms Activated* Jacqueline Toboroff,2023-07-19 Moms the largest voting bloc have had enough Democrats have sold them a bill of lies They ve had their parental rights stripped gender mocked bodily autonomy rejected safety imperiled voices silenced and children turned against them by the educational system they fund Moms are only loyal to one party their kids *Supermoms Activated* charts the journey of twelve mothers from across the nation from varying socioeconomic religious racial and political party affiliations From flipping school boards bringing cases before the Supreme Court running for office lobbying crafting policy starting new schools and changing how politicians campaign the mom army is coming to save this nation The mom crusade has come to protect children from the mainstreaming of gender dysmorphia privilege blocks and furries Their movement has been so impactful that the big guns hoping to silence and disavow them have been summoned mainstream and social media teachers unions educators campaign consultants Hollywood and even the president of the United States Joe Biden These groups have waged war against concerned moms labeling them domestic terrorists *Supermoms Activated* takes readers on a deep dive into why moms woke up and risked everything Through personal journeys this book shows different approaches taken to fight back against Marxism on all fronts There are wins and losses but more than that there s a game plan moving forward Personal agency is most important when it comes to stopping wokeism from taking over and one person can start a prairie fire Join these moms

Educators are learning new tools and strategies at a quick pace and often on their own even through resistance. It is important to explore lessons learned through the pandemic but also of importance is sharing the virtual classroom options and instruction that align to best practices when transitioning to online instruction. Sharing these will allow educators to understand and learn that virtual instruction can benefit all even when not used out of need and can enhance face to face courses in many ways. The Handbook of Research on Lessons Learned From Transitioning to Virtual Classrooms During a Pandemic is a critical reference that presents lessons instructors have learned throughout the COVID 19 pandemic including what programs and tools were found to be the most impactful and useful and how to effectively embed virtual teaching into face to face teaching. With difficult choices to be made and implemented this topic and collection of writings demonstrates the learning curve in a state of survival and also lessons and resources learned that will be useful when moving back to face to face instruction as a tool to continue to use. Highlighted topics include the frustrations faced during the transition, lessons learned from a variety of viewpoints, resources found and used to support instruction, online learner perspectives and thoughts, online course content and best practices in transitioning to online instruction. This book is ideal for teachers, principals, school leaders, instructional designers, curriculum developers, higher education professors, pre-service teachers, in-service teachers, practitioners, researchers, and anyone interested in developing more effective virtual and in-classroom teaching methods.
