Gold, 2024-08-06 Statistics for Social Understanding introduces statistics as it is used in the social sciences as a tool for advancing understanding of the social world. The authors provide thorough coverage of social science statistical topics a balanced approach to calculation and step by step directions on how to use both SPSS and Stata software giving students the ability to analyze data and explore exciting questions. In-Depth boxes encourage critical thinking by tackling tricky statistical queries and each chapter concludes with a chapter summary a section on using Stata a section on using SPSS and practice problems. All problems have been accuracy checked by an outside panel of reviewers. Readily available datasets for classroom use include material from institutions such as the American National Election Study General Social Survey World Values Survey and the School Survey on Crime and Safety. Statistics for Social Understanding is accompanied by a learning package written entirely by author Tina Wildhagen that is designed to enhance the experience of both instructors and students.
