China's Rise In Mainland Asean: New Dynamics And Changing Landscape Suthiphand Chirathivat, Buddhagarn Rutchatorn, Anupama Devendrakumar, 2019-01-15

The rationale for this volume on China's Rise in Mainland ASEAN New Dynamics and Changing Landscapes stems from the rise in recent years of China ASEAN's giant neighbor and in its wake the significant economic political and socio cultural developments in the ASEAN region. In the last two decades China has successfully established itself as a powerful regional and global power surpassing Japan in 2010 as the second largest economy of the world and has become a major player in the affairs of South East Asian nations. At the same time while China's spectacular growth makes it vulnerable in terms of expanding its global dependence it also makes its neighbours equally vulnerable due to their growing dependence on China. All of these developments have led China through its evolving foreign policy to exert considerable influence on its immediate ASEAN neighbours in many complex ways. While the China ASEAN bilateral relations are soaring there are growing concerns among ASEAN member countries about the nature of China's engagement with ASEAN. In this context this book focuses on China's influence on mainland ASEAN countries Cambodia Lao PDR Myanmar Thailand and Vietnam. China's Rise in Mainland ASEAN New Dynamics and Changing Landscapes contributes useful insights rich discussions as well as the debates relevant to building a knowledge base about and better understanding of China's rising influence in mainland ASEAN.
