South African Police Service:

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994 as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

Report of the Commissioner of the South African Police South African Police, 1918 Danger in Police Culture Gráinne Perkins, 2023-12-11 Through ethnographic research in South Africa, this book explores the lived experiences of police navigating danger and death. Enhancing Police Service Delivery James F. Albrecht, Garth den Heyer, 2021-02-16 Contemporary police service delivery and performance are complex phenomena. Law enforcement, particularly at the local level, must therefore face the additional challenges of globalization, cybercrime, counterterrorism, and calls for reform at a time when extreme budgetary constraints are being implemented. Policing operations encompass multiple critical tasks and responsibilities not routinely measured and evaluated, such as response to incidents involving medical assistance, homelessness, mental illness, community engagement, and neighborhood problem-solving endeavors. This volume aims to provide government, criminal justice, and policing administrators, policy makers, and criminal justice scholars and researchers with comprehensive analyses of the critical issues impacting the challenges inherent in providing effectual public safety, security, and service, all from a global perspective. It takes into account popular criticism, extreme budgetary constraints, and the relatively novel and overwhelming challenges of terrorism and cybercrime. The book merges study and practice to identify avenues to best serve community interests, ensure organizational success, and enhance public confidence in policing and in rule of law. **Policing and Boundaries in a Violent Society** Guy Lamb, 2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service (SAPS). By means of

a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization

Contents Introduction Antoinette Verhage Lieselot Bisschop and Wim Hardyns br Articles How to Police a Porous Fortress Monica den Boer 1 Abstract The purpose of this article is to provide an overview of the way in which the European Union has gradually but steadily built a security architecture based on the control of mobility and borders Different logics of policing are interwoven in several projects which are strongly interdependent with technological innovation Furthermore the European policing of mobility is primarily performed by mounting surveillance both inside and beyond European borders by means of which all forms of movement transactions travelling etc are subjected to intensive monitoring by multiple actors

who are interlinked through strategies and systems The main finding is that border policing is shifting in a fundamental way from fixed to fluid from territorial to virtual and from physical to technological Hence paradoxically though mobility is strongly promoted as one of the main virtues of the European Union Europe's precautionary protection may be at ill ease with the free movement of people The article seeks to stimulate the knowledge and debate about deeper shifts in Europe's security apparatus and develops this from a law enforcement perspective Keywords Europe borders security mobility technology
