South African Police Service Leanership 2014:

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994, as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

Every South African has a strong opinion on crime and policing, but most know very little about the lives and experiences of the average cop in the 185 000 strong South African Police Service. This book is composed of excerpts from interviews with current and former members of the service who, for the first time, share their personal experiences of life behind the badge. The book covers a wide range of themes, including reasons for signing up, training, policing under apartheid and transformation after 1994. It describes the experience of solving cases, using lethal force, being shot at, and losing colleagues. Policemen and women speak frankly about the psychological toll of police work and the impact on their family lives, and give startling insights into ethics, torture, corruption, sex, and power. There is a mantra among police: 'What happens on the shift stays on the shift.' In *Behind the Badge*, members break through this wall of silence and reveal the hidden life of the police.
