Servanthood of Song Stanley R. McDaniel, 2024-05-23 Servanthood of Song is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshiping community not just one segment age group or class Servanthood of Song provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today
