The Wounding Time:

The Wounded Body Fabrizio Bondi, Massimo Stella, Andrea Torre, 2022-03-10 This edited collection explores the image of the wound as a cultural symptom and a literary visual trope at the core of representations of a new concept of selfhood in Early Modern Italian and English cultures as expressed in the two complementary poles of poetry and theatre The semantic field of the wounded body concerns both the image of the wound as a traumatic event which leaves a mark on someone's body and soul and prompts one to investigate its causes and potential solutions and the motif of the scar which draws attention to the fact that time has passed and urges those who look at it to engage in an introspective and analytical process By studying and describing the transmission of this metaphoric paradigm through the literary tradition the contributors show how the image of the bodily wound from Petrarch's representation of the Self to the overt crisis that affects the heroes and the poetic worlds created by Ariosto and Tasso Spenser and Shakespeare could respond to the emergence of Modernity as a new cultural feature

The Wounding and Healing of Desire Wendy Farley, 2005-01-01 Using refreshingly unconventional prose rising theologian Wendy Farley has written a theological account of the human condition that delves into the deepest dimensions of the soul Considering human life from the perspective of the wounding and healing of desire with desire being that within us which longs for connection home and beauty Farley presents a passionate moving account of the human condition that draws strongly upon the Christian meditative and mystical spiritual traditions In doing so Farley shifts the traditional images of sin and redemption into images of healing and power The result is a theological memoir that reaches into the human depths and draws forth a response of the soul in courage compassion and delight

The Wounded Body Dennis Patrick Slattery, 2000-01-01 Explores the wounded body in literature from Homer to Toni Morrison examining how it functions archetypally as both a cultural metaphor and a poetic image

Attending to the Wounds on Christ's Body Elizabeth Newman, 2013-02-28 The disunity of the church is a social and theological scandal for it betrays the prayer of Jesus that we will be one so that the world will believe John 17:21 As a Baptist whose academic background focused on the Orthodox Church and whose teaching has included Catholic and Protestant contexts this division is for Elizabeth Newman personal and professional Attending to the Wounds on Christ's Body rests on the conviction that the broad tradition of Christianity already contains resources to heal the church namely the saints of the church Newman examines especially how Teresa of Avila 1515-1582 speaks to the whole church today in the midst of political economic and ecclesial brokenness Teresa's reliance upon three scriptural figures dwellings marriage and pilgrimage helps make sense of an ecclesial way of life that is inherently unitive a unity that stands in contrast to that of the nation state or the global market Teresa's scriptural journey offers an alternative at once liturgical political and economic This Doctor of the Church provides

Standifer, 2014-10-28 In his highly acclaimed Not in Vain Leon C Standifer recounted his experiences as a small town Mississippi boy who at age nineteen found himself fighting as a combat infantryman in World War II France and Germany Binding Up the Wounds carries the story beyond V E Day to describe what the author saw heard felt and learned as a member of the American occupation army in the homeland of its defeated enemy Standifer who served in the 94th Infantry Division in western Germany the Sudetenland and Bavaria in the first year of occupation chronicles that unique and chaotic time from the viewpoint of a typical GI Germany was an epic landscape of human need and cities lay in ruins But the war was over light and laughter were once again possible and as Standifer recalls we had a ball during that first year Among the things he experienced or witnessed were black market operations large and small American cigarettes served as a universal

currency and a few ounces of mess hall grease or used coffee grounds were valuable commodities the spectacle of gung ho officers attempting to turn combat troops into spit and polish paraders the exploitative games played between American soldiers and German women a gut wrenching visit to a displaced persons camp and the difficulties involved in guarding captured soldiers who were no longer the enemy Perhaps most revealing and often surprising are the attitudes Standifer discovered among ordinary Germans toward the war the Nazis the Hitler times in general not only during the occupation but also decades later when he revisited Germany and spoke with elderly survivors of those times For there are really two voices telling the tale of *Binding Up the Wounds* One is that of the combat hardened but otherwise naive twenty year old who lived the experiences The other is that of the author as retired college professor looking back over half a century and puzzling out what those experiences meant for himself for America and for human kind
