From Alliance to Union Joseph A. Kéchichian, 2016-05-24 After the conservative Arab Gulf Monarchies Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE joined forces on 25 May 1981 within the Gulf Co operation Council GCC few fathomed that security requirements on and around the Arabian Peninsula would be so precarious and for so long To answer their search for permanent stability Arab Gulf rulers erected a regional alliance that sought to integrate internal and regional defences as well as strengthen their existing socio economic ties Several of the monarchies even hoped that co ordination on foreign policy issues over which near unanimity existed could eventually lead to a full fledged union as envisaged in the organisation s founding charter Between 1981 and 2015 these Arab Gulf monarchies experienced major socio political transformations resulting from upheavals throughout the Arab and Muslim worlds The perceived necessity to bring about a full fledged union has come into conflict with entrenched viewpoints from regimes that value traditional military political roles and norms In this new study Joseph A Kechichian provides an evaluation of GCC States military institutions to better evaluate whether a stable alliance is capable of enduring over the next few decades and how civilian leaders perceive the role and influence of their military officers for the task Kechichian raises fundamental questions over internal regional and international threats including an existential challenge emanating from the Islamic revolutionary government of Iran and assesses how GCC professionals may be preparing to tackle them He further elucidates on the best methods to meet security challenges not only to secure political survival but also to determine whether conservative Arab Gulf regimes can flourish outside an effective alliance The volume concludes with an examination of evolving civil military relations in the GCC States

Proxy Wars Eli Berman, David A. Lake, 2019-03-15 The most common image of world politics involves states negotiating cooperating or sometimes fighting with one another billiard balls in motion on a global pool table Yet working through local proxies or agents through what Eli Berman and David A Lake call a strategy of indirect control has always been a central tool of foreign policy Understanding how countries motivate local allies to act in sometimes costly ways and when and how that strategy succeeds is essential to effective foreign policy in today s world In this splendid collection Berman and Lake apply a variant of principal agent theory in which the alignment of interests or objectives between a powerful state and a local proxy is central Through analysis of nine detailed cases *Proxy Wars* finds that when principals use rewards and punishments tailored to the agent s domestic politics proxies typically comply with their wishes when the threat to the principal or the costs to the agent increase the principal responds with higher powered incentives and the proxy responds with greater effort if interests diverge too much

the principal must either take direct action or admit that indirect control is unworkable Covering events from Denmark under the Nazis to the Korean War to contemporary Afghanistan and much in between the chapters in Proxy Wars engage many disciplines and will suit classes taught in political science economics international relations security studies and much more

Our Latest Longest War Aaron B. O'Connell, 2017-04-03 American and Afghan veterans contribute to this anthology of critical perspectives a vital contribution toward understanding the Afghanistan War Library Journal When America went to war with Afghanistan in the wake of 9 11 it did so with the lofty goals of dismantling al Qaeda removing the Taliban from power remaking the country into a democracy But as the mission came unmoored from reality the United States wasted billions of dollars and thousands of lives were lost *Our Latest Longest War* is a chronicle of how why and in what ways the war in Afghanistan failed Edited by prize winning historian and Marine lieutenant colonel Aaron B O'Connell the essays collected here represent nine different perspectives on the war all from veterans of the conflict both American and Afghan Together they paint a picture of a war in which problems of culture including an unbridgeable rural urban divide derailed nearly every field of endeavor The authors also draw troubling parallels to the Vietnam War arguing that ideological currents in American life explain why the US government has repeatedly used military force in pursuit of democratic nation building In Afghanistan as in Vietnam this created a dramatic mismatch of means and ends that neither money technology nor weapons could overcome
