Their Name Is Today Reclaiming Childhood In A Hostile World:

Their Name Is Today Johann Christoph Arnold, 2014 There s hope for childhood Despite a perfect storm of hostile forces that are robbing children of a healthy childhood courageous parents and teachers who know what s best for children are turning the tide Johann Christoph Arnold whose books on education parenting and relationships have helped more than a million readers through life s challenges draws on the stories and voices of parents and educators on the ground and a wealth of personal experience He surveys the drastic changes in the lives of children but also the groundswell of grassroots advocacy and action that he believes will lead to the triumph of common sense and time tested wisdom Arnold takes on technology standardized testing overstimulation academic pressure marketing to children over diagnosis and much more calling on everyone who loves children to combat these threats to childhood and find creative ways to help children flourish Every parent teacher and childcare provider has the power to make a difference by giving children time to play access to nature and personal attention and most of all by defending their right to remain children

The Power of Risky Play in the Early Years Zoe Sills, Sarah Watkins, 2025-08-07 Harness the learning Power of Risky Play in the Early Years Now more than ever children need to develop autonomy and decision making skills Too often in Early Years settings opportunities for learning through risky play are missed In this book Zoe Sills and Sarah Watkins support you to overcome the barriers to embedding and allowing space for risky play in your setting Know the value of Risky Play Create a learning environment that encourages and supports Risky Play Feel confident to allow the time and space for Risky Play Develop a better understanding of risk and learning Children know what they need for their bodies and minds Through self directed play children naturally challenge themselves They test their physical and emotional boundaries as part of cognitive and physical development We should be supporting this child led learning in the Early Years not limiting it This book helps you to do this to harness the learning power of Risky Play

A Sense of Place Annie Davy, 2019-02-07 Tried and tested accessible strategies that support the wellbeing and learning journey of children through mindfulness with a focus on learning outdoors and connecting with the world Being outside and connecting with nature is key to young children s learning and wellbeing especially in a busy fast changing and digitalised world Outdoors children can more easily connect to their bodies and learn about themselves and others and how to be in the world They use their senses to explore understand and become mindful of the earth and the people around them But how can Early Years practitioners best support young children as they engage with nature while also passing on the values about the future of the planet *A Sense of Place* is an easily accessible guide that will make outdoor learning more interesting and fun while also supporting children s development of resilience and resourcefulness so that they can survive and thrive in the world as they grow

Contexts for Young Child Flourishing Darcia Narvaez, Julia M. Braungart-Rieker, Laura E. Miller-Graff, Lee T. Gettler, Paul D. Hastings, 2016-07-01 Human beings have the most immature newborn and longest maturational schedule of any animal Only 25% of the adult brain size is developed at full term birth and

most of the brain's size and volume is co-constructed by caregivers in the first years of life. As a result, early life experience has long-term effects on physiological and psychological wellbeing. Contexts for Young Child Flourishing uses an evolutionary systems framing to address the conditions and contexts for child development and thriving. Contributors focus on flourishing, optimizing individual physiological, psychological, emotional and communal social community functioning. Converging events make this a key time to reconsider the needs of children and their optimal development in light of increasing understanding of human evolution, the early dynamism of development and how these influence developmental trajectories. There is a great deal of misunderstanding both among researchers and the general public about what human beings need for optimal development. As a result, human nature unnecessarily can be misshaped by policies, practices and beliefs that don't take into account evolved needs. Empirical studies today are better able to document and map the long-term effects of early deficits or early assets, mostly in animal models but also through longitudinal studies. An interdisciplinary set of scholars considers child flourishing in regards to issues of development, childhood experience and wellbeing. Scholars from neuroscience, anthropology and clinical and developmental studies examine the buffering effects of optimal caregiving practices and shed light on the need for new databases, new policies and altered childcare practices. **The Child's Curriculum** Colwyn

Trevarthen, Jonathan Delafield-Butt, Aline-Wendy Dunlop, 2018-08-30. All children are born with emotional talent. But if left untended, those talents can wane during the first five years of life. Children are sensitive and social beings from birth, exhibiting an innate enthusiasm for communication that must be satisfied for healthy development. If their feelings, agency and motivations are met with affection, if they are respected and nurtured, then children will respond creatively and that inherent desire for companionship will flourish. However, with the recent changes in political and educational systems, early years education has seen a decline in focus on the emotional wellbeing of children and the development of their creativity. Those systems need to adapt if educators are to bring out the best in our future generations. By nurturing creativity and emotional wellbeing in the first five years of life, long-term social benefits can be wrought. The book focusses on children's readiness for learning. It addresses the natural joy explicit in children's early conversations and engagement with music and their development through play with both adults and other children. This kind of education allows children to develop their bodies and skills, accept and understand their feelings, build relationships and progress both their imagination and their problem-solving skills. In this way, play with others drives development. With contributors from the fields of psychological, educational and political spheres, this book will be of interest to anyone concerned for the future of our children. Toxic

Childhood Sue Palmer, 2015-02-12. One in six children in the developed world is diagnosed as having developmental or behavioural problems. This book explains why and shows what can be done about it. Children throughout the developed world are suffering instances of obesity, dyslexia, ADHD, bad behaviour and so on, are all on the rise. And it's not simply that our willingness to diagnose has increased; there are very real and growing problems. Sue Palmer, a former head teacher and

literacy expert has researched a whole range of problem areas from poor diet lack of exercise and sleep deprivation to a range of modern difficulties that are having a major effect television computer games mobile phones This combination of factors added to the increasingly busy and stressed life of parents means that we are developing a toxic new generation

TOXIC CHILDHOOD illustrates the latest research from around the world and provides answers for worried parents as to how they can protect their families from the problems of the modern world and help ensure that their children emerge as healthy intelligent and pleasant adults

A Generation Abandoned Peter D. Beaulieu, 2017-04-26 A Generation Abandoned explores the disruptive cultural events especially of the past half century as these have undermined the confidence of the young in themselves and in civil society and finally in our place in the universe The overall theme is the contrast between this sense of abandonment and our inborn and neglected orientation toward personal worth and the common good the natural law Much of what is peddled as social evolution today is shown to be a throwback to darker times The analysis submits to a refreshingly conversational tone but also draws incisively from a very broad pallet of history literature theater theology and simplifying and illuminating anecdotes some of them first hand An early chapter outlines the perfect storm of the 1960s Later chapters expose the word games of the cultural elite the saga of the family through history and now its abrupt erosion and the difference between any meandering arc of history and a more grounded arc of relations our rationalized culture of death versus a flourishing human ecology

Early Childhood and Neuroscience Mine Conkbayir, 2017-01-12 Highly Commended Nursery World Awards 2017 Professional Book of the Year Early Childhood and Neuroscience is a practical guide to understanding the complex and challenging subject of neuroscience and its use and misapplication in early childhood policy and practice The author begins by introducing the definition and history of neuroscience The reader is then led through structured chapters discussing questions such as Why should practitioners know about neuroscience How can neuroscience help practitioners better provide for babies and children and Is it relevant Topics covered include the nature vs nurture debate through the lens of neuroscience epigenetics the first 1001 days and a discussion on just how critical the first three years of life are to healthy brain development The book provides a balanced overview of the debates by weaving discussion on the opportunities of using neuroscience in early childhood practice with examination of the limitations and ethical implications throughout the chapters This enables students to inform their own opinions about the discipline and its use in their future practice Clear explanations of the main terms and theories are complemented with illustrative case studies of cutting edge research from around the world a glossary of key terms and suggestions for further reading Reflective discussion questions give students the chance to apply their theoretical knowledge to real world contexts These features encourage and support independent critical thinking helping students to reflect on evaluate and analyse a range of ideas research findings and applications for their own future early childhood practice Early Childhood and Neuroscience is essential reading for lecturers undergraduate and postgraduate students in the field as well

as for the new practitioner **The Happy Kid Handbook** Katie Hurley,2015-10-20 With all the parenting information out there and the constant pressure to be the perfect parent it seems as if many parents have lost track of one very important piece of the parenting puzzle raising happy kids Author Katie Hurley shows parents how happiness is the key to raising confident capable children Shame Matters Orit Badouk Epstein,2021-09-29 Winner of the 2022 Gradiva Award for Best Edited Book Understanding shame as a relational problem Shame Matters explores how people with support can gradually move away from the relentless cycle of shame and find new and more satisfying ways of relating Orit Badouk Epstein brings together experts from across the world to explore different aspects of shame from an attachment perspective The impact of racism and socio economic factors on the development and experience of shame are discussed and illustrated with clinical narratives Drawing upon the experience of infant researchers trauma experts and therapists using somatic interventions Shame Matters explores and develops understanding of the shameful deflations encountered in the consulting room and describes how new and empowered ways of relating can be nurtured The book also details attachment informed research into the experience of shame and outlines how it can be applied to clinical practice Shame Matters will be an invaluable companion for psychotherapists clinical psychologists counsellors social workers nurses and others in the helping professions

Educating Children and Young People in Care Sonia Jackson,Claire Cameron,Graham Connelly,2015-05-21 Bringing together research and practice on the theme of the educational well being of children in care this book aims to help professionals to improve these children s potential for educational attainment *Under-three Year Olds in Policy and Practice* E. Jayne White,Carmen Dalli,2016-10-19 The first book in the series Policy and Pedagogy with Under three year olds Cross Disciplinary insights and innovations establishes a path for the much needed examination of the experiences of infants and toddlers in contemporary educational settings across the globe Bringing together internationally renowned scholars in the field it starts a series of discussions about the positioning of under three year olds in contemporary practice and policy contexts It takes an in depth look at what this means for our understanding of under three year olds and those who share their worlds Featuring some of the most important contemporary topics in this pedagogical domain such as care well being belonging professionalism and status the contributors offer a kaleidoscope of perspectives for contemplating the new normality of very young children living their lives in group based early childhood settings and what gives rise to their current realities It also explores some important policy directions and trends No Other Gods Ana Levy-Lyons,2018-03-06 Ana Levy Lyons a public theologian who is equally at home in secular and religious worlds offers a deeply perceptive reinterpretation of the Ten Commandments for our modern lives The Ten Commandments are a spiritual resource for social justice A politically and spiritually brazen prescription for living the Ten Commandments would turn our world upside down if we actually followed them Far from being only ethical norms on which everyone already agrees or a remnant of a bygone oppressive era the Commandments are actually countercultural practices Today the Ten Commandments are a divisive part

of American culture Religious conservatives champion them even if they don't always practice them Religious liberals and the nonreligious may bristle at what they perceive as antiquated moral restrictions But this ancient code still has vital contemporary relevance Rev Levy Lyons explores ways the Commandments bring us meaning illuminate our values and help us navigate through the turbulent waters of social injustice environmental crises and societal inequity No Other Gods looks at each Commandment in new ways moving beyond interpersonal morality to the global economy and our hyper connected age From the first You Shall Have No Other Gods Besides Me Dethrone the Modern Deities of Political Social and Corporate Power to the tenth Do Not Covet Practice Your Liberation You Have Enough You Are Enough and all those in between she underscores how the Commandments can produce a bold spiritual consciousness Whether you are deeply religious or spiritual but not religious learn how the Ten Commandments can guide you to resist injustice heal our earth and find personal dignity amid the free for alls of modern life We don't have to invent a bunch of new practices for a meaningful way to live out our spirituality and social justice politics says Levy Lyons There is a perfectly good set of ten of them all ready to go with as much progressive firepower as any of us can handle that has existed for some three thousand years

Teaching in Themes Deborah Meier, Matthew Knoester, Katherine Clunis D'Andrea, 2015 How do teachers and schools create meaningful learning experiences for students with diverse skills abilities and cultures How can teachers authentically assess the learning of their students and build on their strengths and interests in ways that enrich the larger community How can schools be turned into places where everyone is learning from each other These are the big questions that guide the work of teachers at the well known Mission Hill School in Boston and that are addressed in this book Teaching in Themes will help schools incorporate a whole school theme based curriculum that engages students across grade levels K-8 The authors provide detailed descriptions of four thematic units What's Baking Learning Together About Bread and Bakeries The Impact of Nature and Play The Struggle for Justice U.S. History Through the Eyes of African Americans and Astronomical Inquiries Readers will see how teachers and students design emergent inquiries within the themes and create artwork music presentations and a variety of hands on learning experiences that support differentiated instruction across the curriculum Book Features Examples of whole school projects designed to create a deep sense of immersion in a curricular theme and to build a multi age learning community Details of how teachers developed rich curriculum tailored to their unique students The insights of legendary educator Deborah Meier on how whole school thematic units were used to encourage collaboration among teachers An afterword by teachers and film makers about the thinking behind their work featured in the widely viewed film series A Year at Mission Hill The schools Deborah Meier created in New York and Boston are outstanding examples of democratic education in action I will never forget the first time I visited one of Deborah's schools in East Harlem and saw the joy and curiosity on the faces of children and teachers alike I took time then to carefully describe the school's practices including its portfolio based assessment system because I believed the word needed to be spread I still do Happily

this new book from Deborah and her colleagues at the Mission Hill School adds to the literature on creative and collaborative teaching and on building trusting and powerful learning communities Linda Darling Hammond Charles E Ducommun Professor of Education Stanford University Here is a book that shatters the prevailing definition of a good school as one with high test scores Teaching in Themes makes clear the often hidden fact that there are many kinds of good schools for children adults and a democratic society past and present Experienced teachers tell a fascinating story about Boston s Mission Hill School its goals curriculum classroom lessons and assessments that will knock the socks off many true believers in only one kind of a good school Larry Cuban Professor Emeritus of Education Stanford University Real student engagement is not the result of entertaining instruction it is borne from students being passionate about their own learning about becoming young experts This book gives a behind the scenes look at Mission Hill a remarkably successful public school where the quality of student thinking and student work takes precedence over test scores and where thematic learning builds powerful intellectual bridges within classrooms and across the school Ron Berger chief academic officer Expeditionary Learning

Big Picture Parents Harriet Connor,2017-01-20 Being a parent in the modern world is tough We are often overwhelmed with fear about damaging our children guilt about our imperfections and confusion about our role Harriet Connor knows these feelings well But hers is not just another parenting book full of shoulds and shouldn ts to make you feel worse Rather she invites you to step back and consider the bigger picture What is the purpose of life and parenthood What are our human limitations How can we cope with our guilt and fear What are our family s values and how do we pass them on What is our family s structure and place within the wider community When she was desperate for answers Harriet Connor turned to the ancient wisdom of her ancestors the Bible She went looking for little pieces of grandmotherly advice but what she found was a grand vision a big picture that made sense of both life and parenthood Whether you are new to the Bible or have read it before you will not regret taking time to reflect on its message which has given comfort and guidance to generations of parents just like you

Exercising Muscles and Minds, Second Edition Marjorie Ouvry,Amanda Furtado,2019-11-21 This updated edition of the seminal 2003 text on outdoor play in early years provision taps into the major issues around nutrition exercise and mental wellbeing in this field Focusing on the importance of outdoor play from birth to age five Exercising Muscles and Minds Second Edition aids practitioners in planning for learning outside throughout the year Updated to include engagement with new research and practice that has emerged since 2003 the book explores the neurological benefits of exercise and outdoor play the debates on risk technology and indoor play development of Forest Schools Beach Schools and Nature Kindergartens and rebranding and development of early years teaching methods Full of case studies and ideas for activities equipment and resources this practical guide is full of useful guidance for working outdoors with young children whether in largest of green areas or the smallest of back yards

Creating an Eco-Friendly Early Years Setting Cheryl Hadland,2020-05-11 This book offers a comprehensive guide to becoming a more eco friendly setting from small steps that

can be taken to reduce waste and improve efficiency to setting up partnerships It illustrates how sustainable choices can become a natural part of every child s education and how children parents and staff can all inspire sustainable behaviour across local communities and at national and international levels Covering all aspects of practice including colleague and parental engagement the environment routines resources and teaching and learning the book helps readers and practitioners to embed a sustainable approach in day to day practice It draws on recent research studies and stories of success and failure that can be adapted to fit everyone s own journey towards a more sustainable world The chapters address topics such as plastics and their alternatives sustainable food sustainable resourcing transport and trips waste management Drawing on the experiences of real nurseries and including a wide range of activities and lists of resources this is an essential read for practitioners leaders policymakers and all settings that want to help make sustainable choices a natural part of young children s lives
