The Psychology of Science and the Origins of the Scientific Mind Gregory J. Feist,2008-10-01 In this book Gregory Feist reviews and consolidates the scattered literatures on the psychology of science then calls for the establishment of the field as a unique discipline He offers the most comprehensive perspective yet on how science came to be possible in our species and on the important role of psychological forces in an individual s development of scientific interest talent and creativity Without a psychological perspective Feist argues we cannot fully understand the development of scientific thinking or scientific genius The author explores the major subdisciplines within psychology as well as allied areas including biological

neuroscience and developmental cognitive personality and social psychology to show how each sheds light on how scientific thinking interest and talent arise He assesses which elements of scientific thinking have their origin in evolved mental mechanisms and considers how humans may have developed the highly sophisticated scientific fields we know today In his fascinating and authoritative book Feist deals thoughtfully with the mysteries of the human mind and convincingly argues that the creation of the psychology of science as a distinct discipline is essential to deeper understanding of human thought processes

Anti-Heroes in the Works of Easton Ellis, Coe, Martel and Tsiolkas Panos Gerakis, 2024-04-02 In the late twentieth and early twenty first centuries globalization has significantly influenced gendered experiences worldwide While scholarly attention has predominantly focused on women s lives and marked gender identities since the seventies there remains a conspicuous gap in the exploration of the phenomenically unmarked gender and particularly men s identities and the unique challenges they face Drawing upon a diverse array of texts and ideas from cultural theory this book delves into crucial issues surrounding masculinity the shame struggle precariousness and predicaments inherent in navigating the expectations of being a man in today s era of neoliberalism and globalization Through the lens of the main characters in novels by Bret Easton Ellis Jonathan Coe Yann Martel and Christos Tsiolkas all from the anglophone sphere the narrative illuminates these often overlooked facets of masculinity crisis The book seeks to contribute to a deeper understanding of masculinities today shedding light upon the vulnerable nature of the masculine experience
