Judd E. Hollander

Therese The Philosopher And The Story Of Mrs Bois Laurier:

The Other Enlightenment Matthew Sharpe, 2023-02-16 Challenging widespread misunderstandings this book shows that central to key enlightenment texts was the practice of estranging taken for granted prejudices by adopting the perspective of Others The enlightenment s key progenitors led by Montesquieu Voltaire and Diderot were more empiricist than rationalist and more critical than utopian Moreover each was an artful exponent of the proto postmodernist practice of asking Europeans to review what they considered unquestionable through the eyes of Others Persians women Tahitians Londoners natives and na ves the blind and even imaginary extra terrestrials This book aims to show that this self estrangement as a means to gain critical distance from one s taken for granted assumptions was central to the enlightenment and remains vital for critical and constructive sociopolitical thinking today

Therese the Philosopher Marquis d'Argens, 2013-12-23 This first person narrative by Therese is the charming tale of an innocent s initiation into sexual happiness Self discovery in a convent leads her to her confessor Father Dirrag and she is soon launched upon the path of reason that convinces her that passion and love of the Deity are equal gifts of God With additional mentors Therese learns that sensations are but a part of temperament as natural as hunger and thirst and all may be satisfied as long as it does not harm others
