

HOW TO WRITE A THESIS STATEMENT?

HOW TO WRITE AN EXPOSITORY ESSAY

FOR ASSIGNED SUBJECTS

If you have been asked to write an essay on a specific subject or topic, you can model your thesis statement around this. For example, if you have been given the essay question of 'How does unemployment affect homelessness?' you could write a thesis statement in direct reply to this, it might look something like the following...

"Unemployment affects homelessness in two ways, it causes a rise in how many homeless people there are which in turn has an effect on how much money is being spent on charities such as food banks and homeless shelters."

This statement neatly sums up the main point of the essay and gives a brief look into what is going to be discussed in more depth throughout the piece of writing.

If you have free reign over the essay topic, you must first select what you are going to write about. Once you have decided on this, you can begin crafting your thesis statement. You should remember to ensure that the thesis statement takes care of the following points:

- Show one main argument or idea
- Gives space for people to disagree.
- Shows your personal conclusion on the topic.

Now let's presume that you have chosen the topic of whether homework is conducive to learning, you need to take into consideration the following points:

- What is the main point of the essay?
- What are your views on the topic?
- Can you find any research to back your opinion or even change it?

When you have answered these questions, you are then more easily able to come up with a good thesis statement. As with the assigned essay, it is important to answer a question with your thesis statement. So, considering we are writing an essay on the subject of homework, you could then turn that subject into a question 'Is homework conducive to learning?' Your thesis statement might look something like this:

"More and more parents are refusing to allow their children to do homework, saying that it eats into their free time and provides no benefit to learning. It has been shown that this is not true, in a study conducted in Germany, 90% of children who completed homework passed their exams with a higher grade."

The above thesis statement is strong because it:

- Shows the author's stance on the topic.
- Provides a clear insight to the essay purpose.
- Uses clear and concise language and does not waffle.
- Expresses one main argument.

FOR NON-ASSIGNED SUBJECTS

ADDITIONAL TIPS FOR A GOOD THESIS STATEMENT

We are now going to look at some final hints to ensure that you write the best thesis statement possible.

- Ensure that your thesis statement appears in your introduction and conclusion and does not get buried deep within the body of the essay.
- Make sure that the thesis statement does not exceed two sentences.
- Avoid making obvious statements such as 'this is an essay about....' or 'the point of this paper is....' The thesis statement should be able to convey this without using such up-front language.
- Write clearly and articulately.

The Simple Guide to Thesis Statements and Support Patricia Martin Ma Med, 2015-06-28 Are you writing a paper and confused by your teacher's instruction? Do you want to help your teenager with a school essay but feel lost as to what advice to give? Are you returning to school yourself after years away and find that first essay assignment overwhelming? Is there a local or state issue that you need to write a legislature about but are unsure of how to structure your thoughts? Everyone runs into these situations at some point. People need to know how to state their viewpoints, how to support their views, and how to present information properly. Considering that the writing process takes most writers years to perfect, it is common for teenagers and professional adults alike to struggle with writing. Few writers are masterful essayists when they start out. Writing and supporting a strong thesis statement takes time and practice. Many writers struggle with constructing a thesis and how to support one with valid information. Thesis statements, theses, are probably the most challenging elements of essay writing. In this book, we attempt to present the crafting of thesis statements and their support in a simple, straightforward manner. Think that thesis statements are only for high school essays? Think again. Citizens who write letters to government representatives use thesis statements to voice their opinions and use data to support them. Consumers reach out to businesses to suggest product improvements and make requests. Business professionals communicate in memos, emails, and letters to colleagues and other businesses about products and services, and they use thesis statements to make their points. Like all of the books in the Simple Guide Books series, The Simple Guide to Thesis Statements and Support is written for the person who may struggle with this topic and the person who needs basic explanations with straightforward examples. The book helps students, parents, and professionals alike to achieve their goals of improving their writing efficiently. All writers encounter thesis statements and support at some point.
