The personal odyssey of a man with a disability this passionate book tries to tell as well as analyze what it is like to have a disability in a world that values vigor and health Zola writes Missing Pieces is an unraveling of a social problem in the manner of Black Like Me Like its author I too am a trained social observer but for me passing was not an issue For I already have the stigmata of the disabled the braces the limp the cane though I have spent much of my life denying their existence

The author started out in the role of a social scientist on a seven day excursion to acquaint himself with an extraordinary experiment in living Het Dorp one of the few places in the world designed to promote the optimum happiness of those with severe physical disabilities Neither a medical center nor a nursing home Het Dorp is a village in the western most part of the Netherlands What began as a sociological attempt to describe this unusual setting became through the author's growing awareness what can only be called a socio autobiography Resuming his prior dependence on a wheelchair the author experienced his own transformation from someone who is normal and valid to someone who is invalid The routine of Het Dorp became his he lived in an architecturally modified home visited the workshops and shared meals social events conversation and perceptions with the remarkably diverse residents The author confronts some rarely discussed issues the self image of a person with a chronic disability how one fills one's time how one deals with authority and dependence and love and sex Missing Pieces offers striking insights into an aspect of the human condition shared by nearly 30 million Americans It is must read for the general reader as well as for the rehabilitation counselor social worker or social scientist
