Global Approaches to the Holocaust Mark Celinscak, Mehnaz Afridi, 2025-11 The field of contemporary Holocaust studies is increasingly international in perspective. These approaches do not detach themselves from European history; rather, they incorporate perspectives and voices not always considered in more traditional Holocaust studies. The contributors to this volume take such an approach as they examine the Holocaust, adding to the historical and memorial reach of the subject through an international range of voices. Global Approaches to the Holocaust asks: What happens when scholars shift their focus from an exclusively European perspective of the Holocaust? What new insights are gained from exploring the impact of the Holocaust from outside the European milieu? How do countries that were not directly affected by Nazi policies of occupation and extermination remember the Holocaust? What does an expansive approach to the Holocaust entail? With essays about North and South Africa, Mauritius, Japan, Argentina, Mexico, Chile, the Philippines, the United States, Australia, Canada, India, Pakistan, Palestine, Colombia, New Zealand, and more, Global Approaches to the Holocaust seeks to create a critical voice in Holocaust studies that encompasses not only Europe but also Asia, Africa, South and North America, Australia, and the Middle East. **Reforming Civil-Military Relations in New Democracies** Aurel Croissant, David Kuehn, 2017-03-20 This book addresses the challenge of reforming defense and military policy making in newly democratized nations.
