Re Search through Architecture ICAR 2015 proposes a debate of the subject defining some new principles of nowadays
architectural design In the XXI st century in searching of a style after Postmodernism it is considered that new architecture
based on algorithms and parameters may offer new senses of space continuity and legibility In opposite the contextualist and
phenomenologist movements consider this approach as a formal and fragile tendency culturally un sustained and which won
t prove its consistence in time as utopist and futurist did Topics like new avant garde movement stylistic searching
anachronistically architecture space continuities and correspondences lived architecture or experimental manifesto projects
the evolving of geometries urban continuities or classical defragmentation functional zoning social impact scenarios space
formalization aesthetic and symbolic design values authentically or new built archaeology sustainable design etc will be
