From Immigrants to Americans Jacob L. Vigdor,2010-01-16 Immigration has always caused immense public concern especially when the perception is that immigrants are not assimilating into society they way they should or perhaps the way they once did Americans are frustrated as they try to order food hire laborers or simply talk to someone they see on the street and cannot communicate with them because the person is an immigrant who has not fully adopted American culture or language But is this truly a modern phenomenon In *From Immigrants to Americans* Jacob Vigdor offers a direct comparison of the experiences of immigrants in the United States from the mid 19th century to the present day His conclusions are both

unexpected and fascinating Vigdor shows how the varying economic situations immigrants come from has always played an important role in their assimilation The English language skills of contemporary immigrants are actually quite good compared to the historical average but those who arrive without knowing English are learning at slower rates He continues to argue that today's immigrants face far fewer incentives to assimilate and offers a set of assimilation friendly policies From Immigrants to Americans is an important book for anyone interested in immigration either the history or the modern implications or who want to understand why today's immigrants seem so different from previous generations of immigrants and how much they are the same Co published with the Manhattan Institute **Dickens, Journalism, and Nationhood** Sabine Clemm, 2010-04-15 Dickens Journalism and Nationhood examines Charles Dickens weekly family magazine Household Words in order to develop a detailed picture of how the journal negotiated asserted and simultaneously deconstructed Englishness as a unified and sometimes unifying mode of expression It offers close readings of a wide range of materials that self consciously focus on the nature of England as well as the relationship between Britain and the European continent Ireland and the British colonies Starting with the representation and classification of identities that took place within the framework of the Great Exhibition of 1851 it suggests that the journal strives for a model of the world in concentric circles spiraling outward from the metropolitan center of London Despite this apparent orderliness however each of the national or regional categories constructed by the journal also resists and undermines such a clear cut representation The Xenophobe's Guide to the Austrians Louis James, 2010-01-29 A guide to understanding the Austrians that delves into the cultural curiosities and peculiar characteristics of this land locked nation
