The Year After English Edition:

The Literary Channel Margaret Cohen, Carolyn Dever, 2002-01-15 In the Channel zone the novel developed through interactions among texts readers writers and translators that inextricably linked national literary cultures It served as a forum to promote and critique nationalist clichés whether from the standpoint of Enlightenment cosmopolitanism the insurgent nationalism of colonized spaces or the non nationalized culture of consumption In the process the Channel zone promoted codes that became the genre's hallmarks including the sentimental poetics that would shape fiction through the nineteenth century The Samaritan Problem John Bowman, 2004-05-04 This work a translation of Bowman's 1967 Samaritanisch Probleme is provocative causes rethinking of old problems and includes a number of quite distinctive views on the Samaritans differing from commonly accepted positions Religious Studies Review

The Next Instalment Wendy Roy, 2019-11-28 What happens next That was the question asked of early twentieth century authors Nellie L McClung L M Montgomery and Mazo de la Roche whose stories and novels appeared serially and kept readers and publishers in a state of anticipation Each author answered through the writing and dissemination of further instalments McClung's Pearlre Watson trilogy 1908 1921 Montgomery's Anne of Green Gables books 1908 1939 and de la Roche's Jalna novels 1927 1960 were read avidly not just as sequels but as serials in popular and literary newspapers and magazines A number of the books were also adapted to stage film and television The Next Instalment argues that these three Canadian women writers all born in the same decade of the late nineteenth century were influenced by early twentieth century publication marketing and reading practices to become heavily invested in the cultural phenomenon of the continuing story A close look at their serials sequels and adaptations reveals that rather than existing as separate cultural productions each is part of a cultural and material continuum that encourages repeated consumption through development and extension of the originary story This work considers the effects that each mode of dissemination of a narrative has on the other
