The Wonder of Their Voices Alan Rosen, 2010-10-18 Over the last several

decades video testimony with aging Holocaust survivors has brought these witnesses into the limelight Yet the success of these projects has made it seem that little survivor testimony took place in earlier years In truth thousands of survivors began to recount their experience at the earliest opportunity This book provides the first full length case study of early postwar Holocaust testimony focusing on David Boder s 1946 displaced persons interview project In July 1946 Boder a psychologist traveled to Europe to interview victims of the Holocaust who were in the Displaced Persons DP camps and what he called shelter houses During his nine weeks in Europe Boder carried out approximately 130 interviews in nine languages and recorded them on a wire recorder Likely the earliest audio recorded testimony of Holocaust survivors the interviews are valuable today for the spoken word that of the DP narrators and of Boder himself and also for the song sessions and religious services that Boder recorded Eighty sessions were eventually transcribed into English most of which were included in a self published manuscript Alan Rosen sets Boder s project in the context of the postwar response to displaced persons sketches the dramatic background of his previous life and work chronicles in detail the evolving process of interviewing both Jewish and non Jewish DPs and examines from several angles the implications for the history of Holocaust testimony Such early postwar testimony Rosen avers deserves to be taken on its own terms rather than to be enfolded into earlier or later schemas of testimony Moreover Boder s efforts and the support he was given for them demonstrate that American postwar response to the Holocaust was not universally indifferent but rather often engaged concerned and resourceful
